ADPRO®

ADPRO FastTrace 2E
XO-enabled NVR+ for Remote Monitoring

Product Overview

The ADPRO FastTrace 2E NVR+ is a hybrid network video recorder and transmission unit running the XO Security+ Operating System software to deliver full remote monitoring capabilities. It offers up to 20 analogue cameras (16 if down the coax) and additional IP cameras up to a maximum of 32 with up to 32 channels of video content analytics (VCA). The unit comes with 4 hard disc bays so storage up to 40 TB as well as RAID 1 support. Used in conjunction with our range of video analytics and bi-directional audio capability offers exceptional monitoring to ensure reliable and qualitative CCTV management. The alarm management capability will deliver alarms and commands from a range of inputs including passive infrared detectors, access systems, barrier management and intruder devices. As well as being the winner of multiple awards across the security industry the unit is BS4818 compliant. Over 20 manufacturers' IP cameras are supported as well as an ONVIF Profile S platform for greater integration.

Key Features and Benefits

- H.264/H.265 video compression, highest quality video with lowest bandwidth*
- Duel codec (analogue) or use of multi stream (IP) for totally independent recording and viewing quality settings per camera
- Two way audio capability, one bi-directional half–duplex audio channel available per video channel with optional audio switcher
- Fast post record metadata motion search capability, results are presented on a timeline in seconds without large video data transfers across the network.

- Local on board input/outputs with up to 128 input/outputs via optional Ethernet PoE modules
- Intuitive web interface gives authorized users remote access to live and recorded video over the network
- Ships with analytics licenses that can be remotely managed via Xchange; capacity can be built up to 32 channels of analytics (IntrusionTrace or LoiterTrace)

Suitable Applications

- Critical infrastructure
- Construction
- Power Generation
- Warehousing and production
- Solar and wind farms
- Healthcare
- Education
- Government Buildings
- Retail and the supply chain
- Sports facilities and Arenas

*H.265 is supported on Hikvision cameras and generic driver

Part Number List

ADPRO FastTrace 2E Part Numbers	
58101210	ADPRO FastTrace 2E Hybrid – 19" Rack Mount 4 Analogue Channels Disk : 1TB 8 Inputs / 4 Outputs 1x RS485 port No DTC (= PTZ over coax)
58201220	ADPRO FastTrace 2E – 19" Rack Mount 8 Analogue Channels Disk : 1TB 20 Inputs / 8 Outputs 1x RS485 port No DTC (= PTZ over coax)
58301320	ADPRO FastTrace 2E – 19" Rack Mount 12 Analogue Channels Disk : 2TB 20 Inputs / 8 Outputs 1x RS485 port No DTC (= PTZ over coax)
58401320	ADPRO FastTrace 2E – 19" Rack Mount 16 Analogue Channels Disk : 2TB 20 Inputs / 8 Outputs 1x RS485 port No DTC (= PTZ over coax)
58401321	ADPRO FastTrace 2E – 19" Rack Mount 16 Analogue Channels Disk : 2TB 20 Inputs / 8 Outputs 1x RS485 port DTC
58501320	ADPRO FastTrace 2E – 19" Rack Mount 20 Analogue Channels Disk : 2TB 20 Inputs / 8 Outputs 1x RS485 port No DTC (= PTZ over coax)
Additional storage	
39544270	4 analogue camera extension card for FastTrace 2 model (PN 55xxxxxx) Cannot be used on V3100 models
39544280	8 analogue camera extension card for FastTrace 2 model (PN 55xxxxxx) Cannot be used on V3100 models
39544290	16 analogue camera card for FastTrace 2 model (PN 55xxxxxx) Cannot be used on V3100 models
39544250	HDD 1 TB (3,5" HDD + mounting brackets)
39544260	HDD 2 TB (3,5" HDD + mounting brackets)
39544262	HDD 4 TB (3,5" HDD + mounting brackets)
39544263	HDD 6 TB (3,5" HDD + mounting brackets)
39544264	HDD 8 TB (3,5" HDD + mounting brackets)
39544266	HDD 10 TB (3,5" HDD + mounting brackets)
Additional Alarm Inputs and Outputs	
49841000	External Ethernet PoE module 4 In / 4 Relay Out MASTER
49841010	External Ethernet PoE Extension module 4 In / 4 Relay Out (max. 3 per 49841000) SLAVE

Delivery Lead Time

7 – 10 working days

Warranty

2 years
