Application Note

Compatibility Matrix for QUICKPORT™ Angled Modular Furniture Faceplate

QUICKPORT Universal 4-Port Angled Modular Furniture Faceplate provides large organizations a single consistent solution for use with popular furniture panel system brands. The design includes multiple features engineered to protect network connections in the work area and to save time and expense from procurement through installation.

The following table shows the opening sizes of the most popular modular office furniture and whether the size is supported by the Leviton Angled Modular Furniture Faceplate.

For additional information please contact Leviton Technical Services at appeng@leviton.com or by phone at 1-800-722-2082 (opt. 2).
