Versi-Duct® Vertical Cable Management System

APPLICATION

The Versi-Duct Cable Management System uses slotted ducts to route cable. The system mounts onto an industry-standard equipment rack. Two vertical 40-inch ducts, or one 80-inch duct (comprised of two 40-inch ducts) span the full length of a standard seven-foot equipment rack. The vertical slotted ducts come with cable concealing covers. An assortment of compatible cable management accessories is available.

SPECIFICATION

The vertical cable management system shall be a slotted duct configuration for copper and fiber cable systems. The management system shall be cULus listed, PVC rated UL 94V-0, ABS rated UL 94HB, and compliant with ANSI/TIA-568 standards. It shall mount onto an industry-standard 19-inch equipment rack. The management system shall offer an assortment of accessories including cable retainers, slack loop organizers, cover hinges, and designer covers.

ACCESSORIES

Accessories sold separately:

- **Cable Retainer** - Mounts on the duct fingers, is adjustable to slide along the duct finger, and includes break-away detail to accommodate all duct sizes
- **Mounting Bracket Kit** - Used to attach a vertical duct to an adjacent equipment rack (each kit comes with #8 screws)
- **Slack Loop Storage Organizer** - Stores slack cable and maintains a minimum of 1.18-inch bend-radius. Designed to be mounted on the duct fingers and can be adjusted to a variety of slack loop sizes
- **Duct Cover Hinge** - Designed to easily open and close duct cover for increased protection and easy access

FEATURES

- Versatile solution for fiber and copper cable organization and management
- Front only and front/rear configurations
- Cable concealing covers
- Mount on standard equipment racks with top, bottom, and side cable entry
- Duct fingers align with standard rack spacing

DESIGN CONSIDERATIONS

- Use on side of rack to route, protect, and manage fiber or copper cable

STANDARDS & REGULATIONS

- ANSI/TIA-568
- cULus Listed
