Commercial AV by Belden

Belden is the trusted brand in audio video cabling and connectivity. The AV industry has come to rely on our proven track record of innovation, quality, and consistency. Belden upholds its reputation with warranties unmatched in the industry.

Our product offering includes traditional audio and video, networking and fiber optic cable and connectivity. Whether integrating analog, digital, fiber transport, or IP-based systems, Belden can offer a solution for your installation needs. Our products are designed to support communications protocols like HDBaseT, HDMI, and IEEE AVB.

These products are locally available through one of our channel network's 1600 locations nationwide. Belden, Telecast, and our channel partners also offer a number of technical and value-added services to ensure the successful planning, deployment, and profitability of AV installations.

Commercial AV by Belden: A complete set of products designed specifically for commercial audio distribution, video display, automation and lighting control.

Video Distribution Solutions

AV and security system integrators are increasingly selecting compression connectors, which can be problematic when used with traditional foil design coaxial cables. The foil can bunch up when inserted into compression connectors or, if the foil is left in place, foil "stringers" can result, which can short the cable's center conductor.

The Belden's HD Coax cable design includes a tinned copper braid shield (85 percent coverage) and bonded Duofoil® shield (100 percent coverage) for effective shielding in higher frequency applications. The bonded foil shield simplifies termination with one-piece connectors.

The new coax design uses very high velocity dielectrics so the plenum and non-plenum versions are close in size, allowing selection of a single type of compression connector for both.

Belden's best-in-class, high-density foaming technology ensures reliable signal integrity and better video images while also providing superior crush resistance, concentricity and conductor adhesion for more stable performance.

The cables are available in ten colors: Black, White, Red, Green, Blue, Yellow, Orange, Violet, Brown, and Gray.

Designed especially for use with compression connectors, **Belden HD Coax cables feature a foil shield that is securely bonded to the core, making stripping and termination easier and eliminating the risk of foil stringers and shorting.**

HD Coax Cables

	Description	Key Attributes	Belden Part Number

RCA and F connectors are also available

Belden introduces a completely new connector family under the Snap-N-Seal brand featuring industry-leading design elements from both Snap-N-Seal and F-Conn products. Installations in commercial and residential A/V, security, and broadband markets will be a "snap," thanks to the low compression force associated with traditional Snap-N-Seal connectors along with the patented non-blind entry with floating pin design from F-Conn. ProSNS is designed to fit all constructions of Mini/RGB, RG59, RG6, and RG11 cable. All pre-existing Cable Pro tools are compatible with ProSNS, making it the most broad and diverse product offering under the Snap-N-Seal umbrella.

Video Distribution Solutions (continued)

Belden's 75-ohm RGB/VGA cables offer greater signal integrity and lower loss in high-frequency, long-distance transmissions. Our patented Banana Peel® unjacketed construction delivers ease of installation and reliable performance in large-screen video, HDTV, CAD and special effects video applications. Many of these are suitable for VGA and higher-resolution graphics applications. In other words, if you have a component-video application, we have many solutions available.

Belden offers Mini Hi-Res coax in jacketed or Banana Peel constructions. Jacketed constructions are more protective of the individual coaxes because of the overall jacket. Banana Peel is Belden's patented technology where each cable is bundled and affixed to a center spline, eliminating the need for an overall jacket. During installation, the installer can peel each component away from the center for easier termination. Banana Peel has a smaller OD, occupies less space in the conduit and has a better bend radius than traditional jacketed products.

Mini Hi-Res Coax Cables

Video Display Solutions

Belden offers a wide selection of 75-ohm coax for broadband CATV and MSO applications.

Even with high definition TV, S-Video, a legacy cable, has not totally been replaced. There is still a market for these cables used for standard definition video.

Belden offers S-Video cables in both flat or round constructions. Each option has its advantages. A round construction is easier to handle, more flexible, and arguably looks better. A flat construction takes up less area/space and can be split apart easier for termination. Historically, Belden customers prefer the flat S-Video option.

Speaker Cable Solutions

Belden offers speaker cables for a wide range of applications, including riser, plenum, indoor/outdoor, direct burial, and commercial and professional installations. All cables feature Electrolytic Tough Pitch (ETP) pure virgin copper construction (ASTM B3 and B8). We also offer Direct Burial speaker cable with ASTM B170 with ultra-high purity (99.995% pure), sometimes described as "oxygen-free (OFC)" copper.

We also offer larger gauges up to 10 AWG in a UL-safety recognized construction, and also offer Class 2 or Class 3 wiring for high-power amplifiers that need this safety rating. Class 1 cables can be found in our Brilliance broadcast offering.

If you are unsure whether you should choose speaker cable with a solid or stranded conductor, consider the following: Solid conductors avoid stray strands which can short out connections and the resistance of solid conductors is also lower than stranded, but stranded conductors are more flexible, which helps make installation easier.

Speaker Cables – Solid Conductor

	Description	Key Attributes	Belden Part Number	
			Riser	Plenum
	22 AWG, 2 Conductor	Solid	5520UE	6520UE
	22 AWG, 2 Conductor	Solid	5521UE	6521UE
	22 AWG, 3 Conductor	Solid	5522UE	6522UE
	18 AWG, 2 Conductor	Solid	5320UE	6320UE
	18 AWG, 3 Conductor	Solid	5321UE	6321UE
	18 AWG, 4 Conductor	Solid	5322UE	6322UE

Speaker Cables – Stranded Conductor

	Connector Body, Compression Tool		CPLCCT-SLMR	

Audio Cable Solutions

Belden's wide array of audio cables range from high-performance, low-capacitance analog and digital audio constructions for optimum signal delivery to cables manufactured to basic industry specifications for commercial use, short runs and non-mission critical applications. Belden pioneered the Easy Strip foil bonded to the jacket for ease of installation and now offers this feature on digital cables, plenum cables and 2-pair versions.

We also offer multi-pair bundled cables to simplify installation. We make these in ultra-flexible

unrated versions, CM and CMR (riser-rated), halogen-free, and plenum versions for the most demanding installation requirements. Up to 32-pair in analog or digital audio snakes will satisfy every designer and system integrator.

Often used in intercom systems, line level audio applications, and/or noisy environments, Belden's shielded audio solutions offer a number of options for protecting signals from EMI/RFI.

Belden uses a shorting fold technique to maintain metal-to-metal contact for improved high-frequency performance. Without the shorting fold, a slot is created through which signals can leak and cause interference.

Shielded Audio Cables – Solid Conductor

	Description	Key Attributes	Belden Part Number

Media Automation and Lighting Control Solutions

Automation and lighting control are growing rapidly in commercial buildings because of their ability to reduce energy consumption and cost. More sophisticated and complex systems are

often integrated with HVAC and/or security systems as well. Belden now offers cables that work seamlessly with AMX®, Lutron®, DMX®, and Crestron® systems.

AMX® Systems

	Description	Cable Construction	Belden Part Number	
			Riser	Plenum
	Cable Configured for AXLINK™	22 AWG, 1 Shielded Pair (100Ω) + 18 AWG, 2 Conductor	1392A	1392P
	Cable Configured for DXLink™	Category 5e Cable	1212F	1213F
	Cable Configured for DXLink™	Category 6 Cable	2412F	2413F
	Cable Configured for DXLink™	10GX / Category 6A Cable	10GX62F	10GX63F

Lutron® Systems

	Description	Cable Construction	Belden Part Number	
			Riser	Plenum
	Cable Configured for EcoSystem® System, Bus Cable	16 AWG, 2 Conductor	1382LA	1382LP

Belden offers a full line of Optical Fiber Cable and Connectivity. For more information on our Optical Fiber product offering please visit www.belden.com or call 1-800-Belden-1 to request an Optical Fiber Catalog.

Copper Structured Cabling Solutions

Belden Copper Networking Systems are available with the following wide range of components including cable, RJ45 plugs, cable assemblies, RJ45 connectors, patch cords and faceplates.

Below and on the following page we have included a selection of products that is most often used in Commercial AV applications. For more information on our product offering please

visit www.belden.com or call **1.800.BELDEN.1** to request a Copper Networking Catalog.

Category 5e Cables

Fiber Structured Cabling Solutions

In some applications, even our precision digital coaxes can't go far enough. No problem! We just proceed to our fiber optic cable offering. Below are the commonly used fiber products in commercial AV applications. Our full fiber optic

product line includes single mode, multi-mode and halogen-free and PUR versions as well as tactical fiber and SMPTE 311M cable.

If you've dealt with copper your whole career,

there's no reason anymore to be scared of fiber. Belden now offers a fiber termination kit, and fiber connectors for both multi-mode and single mode fiber. In only a few hours, anyone can learn to put on these connectors in just a couple of minutes.

FiberExpress Multi-mode Fiber Cable

FiberExpress Brilliance Connectors

The FiberExpress Brilliance connector offers installers and end-users alike the fastest, simplest, most cost-effective and reliable field-installable connector in the industry.

Three Simple Steps

Coaxial Connectivity Solutions

Belden is the brand professional cable installers trust as a world-class manufacturer of signal transmission products and connectivity solutions. Belden offers quality products to provide superior signal performance for the Professional Audio-Video, Security, and Satellite/CATV

markets. The ProSNS™/FS Series and Double Bubble™ connector brands feature F, RCA and BNC connectors for RG11, RG6, RG59 and RGB/Mini Coax for standard through quad-shield (universal) and plenum cables. These connector brands, coupled with Cable Pro compression

and cable prep tools and Belden cables, are all designed specifically to maximize signal integrity, ensure quality, performance and durability while providing customers with unparalleled end-to-end performance.

BNC Compression Video Connectors

*1-Piece mini coax connectors are designed for solid center conductor wire only

Belden offers RCA connectors for most coaxial cable constructions including the cables referenced in the above chart. For more information on available RCA connectors, please call 1-800-BELDEN-1.

Modular Plugs

Belden offers a series of RJ45 Category 6 and Category 5e Modular Plugs as an accessible, easy-to-use solution to terminate twisted pair and multi-conductor flat cable for security, audio/

video and broadcast applications where field installation is necessary. Belden modular plugs are designed for Belden category cable to optimize performance quality.

Category 5e Modular Plugs

	Description	Color	Tool Required	Belden Part Number
	RJ45 Category 5e Non-Shielded Modular Plug w/50 Micron Gold Contacts	Clear	CPRJ11-45	HIMP-RJ45
	RJ45 Category 5e Shielded Modular Plug w/50 Micron Gold Contacts	Nickel	CPRJ11-45	HIMP-RJ45SH

Category 6 Modular Plugs

	Description	Color	Tool Required	Belden Part Number
	RJ45 Category 6 Non-Shielded Modular Plug w/50 Micron Gold Contacts	Clear	CPRJ11-45	HIMP-RJ45CAT6
	RJ45 Category 6 Shielded Modular Plug w/50 Micron Gold Contacts	Nickel	CPRJ11-45	HIMP-RJ45CAT6SH

Modular Strain Relief Boots

	Description	Color	Tool Required	Belden Part Number
	Strain Relief, Snagless Over Boot, 6 mm	Black	NO TOOL REQUIRED	SLS-RJ45-6.0
	Strain Relief, Snagless Over Boot, 7 mm	Black	NO TOOL REQUIRED	SLS-RJ45-7.0
	Strain Relief, Crimpable Snagless Over Boot, 5.7 mm	Black	CPRJ11-45	SLS-RJ45CR-5.7
	Strain Relief, Crimpable Snagless Over Boot, 6.3 mm	Black	CPRJ11-45	SLS-RJ45CR-6.3

Strip & Crimp Tool for Modular Plugs

The Belden Cable Pro Strip and Crimp tool is designed as a multi-functional tool with the ability to cut, strip and terminate category cable for RJ11 and RJ45 modular plug installations. The tool features a cable stop to ensure a precise 1/4" or 1/2" prep to the cable depending on the job

requirement and user preference. Installation is quick and easy to manage, since there is no need to carry multiple tools or die sets with the Strip and Crimp tool.

- Cuts, strips and terminates category cable without changing die sets or tools

- Terminates RJ11 and RJ45 modular plugs
- Short cable stop creates 1/4" cable prep
- Long cable stop creates 1/2" cable prep
- Comfort-grip handles

Strip & Crimp Tool for Modular Plugs

	Description	Belden Part Number
	Crimp and Strip Tool for RJ11 (6 Position) and RJ45 (8 Position) Modular Plugs	SLS-RJ45CR

Rack and Enclosure Systems

Belden enclosures and racks are designed to meet the unique requirements of Commercial AV applications. These enclosures provide the flexibility and versatility needed to house and protect servers and other delicate electronic equipment, and allow the right amount of room needed for proper functioning. Key features include:

- Welded frame construction on enclosures for greater strength and support
- Numerous top and bottom entry points for easy configuration
- Cable access top features a 14.25" x 4" rubber gland which helps prevent dust from entering the enclosure
- Sliding rails can be adjusted after installation to allow for cable management and different depths of equipment without removing terminated equipment
- EIA rails are numbered in rack space increments
- Perforated tops and cooling devices, perforated and vented doors, plus a variety of top panel options provide effective passive convection cooling
- Electronic locks on door handles for added enclosure level security
- Power distribution units with locking receptacles
