

Video Wall Jack, F-Connector

APPLICATION

Leviton's Telephone and Video wallplates are ideal where flush mount telephone or video connection plates are needed. These familiar and functional wallplates support video applications in NEMA openings where a traditional look is desired. Durable video connection wallplates are available with a nickel-plated female-to-female 75 Ω F-Connector Coupler.

80782-xxx

SPECIFICATION

The Leviton Standard Video Wall Jack shall meet all applicable standards and be available in two configurations including a single F-coupler plate and a dual F-coupler plate. The plate shall support standard NEMA compliant wall-boxes and low-voltage box eliminators. The F-coupler shall support all video and multimedia applications and support frequencies up to 3GHz.

FEATURES

- Durable, smooth finish nylon material that matches other Leviton nylon wallplates for a consistent look throughout the home or business
- Includes mounting hardware with color-matched wallplate screws
- Available with one or two F-Connector Coupler(s)
- Mounts to single-gang backboxes or four-square boxes with appropriate user-provided reducer
