

FOCUSED ON YOUR SUCCESS

ColorVu

PRODUCT CATALOG | FALL 2021

“We’re committed to delivering high-quality, innovative solutions with a best-in-class sales and support team that is focused on your success.”

Hikvision: Solutions for a Changing Business Environment

We aim to meet the needs of a changing world by harnessing the power of our technological innovations and our team, while helping you protect your employees, customers and assets, especially during this challenging time.

In this catalog, you'll find some of our most popular and well-known product lines and solutions such as our Smart Pro IP Cameras, deep learning technology that fuels accurate video content analytics, thermal technology made affordable, and more.

We're committed to delivering high-quality, innovative solutions with a best-in-class sales and support team that is focused on your success. Hikvision's extensive and diverse Canadian team consists of professionals country wide to provide local and national support.

As you peruse the catalog, remember that we are here to partner with you to support business success with solutions that go beyond security. Let us know how we can help.

2nd Gen Acusense PCI Series

Performance IP Camera

Hikvision's 2nd Gen AcuSense PCI Series Cameras. Offering enhanced hardware and mounting, the PCI series is easier to install, is waterproof, and features new Motion Detection that works in conjunction with human and vehicle filtering.

The PCI series enhances accuracy and reduces false alarm notifications, helping to save you time and money on incident response. With new audio and visual notifications, 2nd Gen AcuSense provides real-time active deterrence from crime, intruders and unwanted behavior.

Strobe Light and Customizable Audio Warning, Monitor and Deter In Real Time - reduces the risk that an intrusion event will occur. Audio volume and strobe light brightness are adjustable and can be adapted to the environment. (SL models only)

Easy Configuration - easily and quickly enable a video analysis rule to start enjoying the simplicity and effectiveness of AcuSense performance.

FEATURES

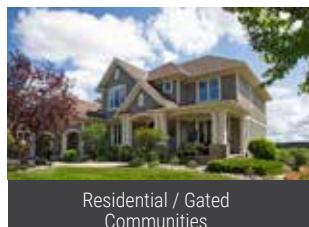

Low-Light Technology: Ultra-low Light "Powered by DarkFighter" Technology Delivers Brighter Colours and Clear Detail at Night

Cloud Storage: Camera-Accessible Cloud Options to Store Video on the Cloud with Greater Flexibility and Low Operating Costs

False Alarm Reduction: Effectively Reduces False Alarms, Increases Productivity and Enhances Operational Efficiency.
More Accurate Property Perimeter Protection - 2nd Gen AcuSense accurately senses and distinguishes human and vehicle movements from other moving objects, reducing false alarms. Security staff receives more accurate alarm data to evaluate, enabling more efficient responses to incidents and reducing unnecessary responses to false alarms and unimportant events.

Quick Target Search: Enables staff to automatically identify footage of people and vehicles, eliminating the high costs of manual searches of video footage

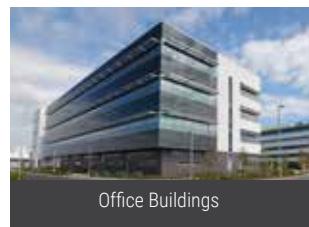

Easy Configuration: Easily and quickly enable a video analysis rule to start enjoying the simplicity and effectiveness of AcuSense performance.

ColorVu

Hikvision ColorVu imaging technology provides vivid images and video around the clock, even in zero-light environments, by using a high-performance sensor, a large iris, and gentle supplemental lighting.

Darkness provides cover for theft, trespassing, and other crimes. When incidents occur at night, conventional cameras without supplemental lighting miss or lose critical details. Infrared illumination brings out more details in nighttime lighting conditions, however, it provides only black and white images.

DS-2CD2087G2-L

DS-2CD2147G2-SU

Colours missing from the footage makes it difficult to provide a positive identification. With ColorVu cameras, the true colour of a person's clothing or the colour of a vehicle will be clearly visible in live viewing mode and in recorded video footage—during daytime, nighttime, and poor lighting conditions.

FEATURES

- Clear, full colour images—day and night—with brilliant detail and clarity for more rapid identification of humans or vehicles.
- Improved safety for employees and customers walking in poorly lit areas at all times of day and night.
- Illuminates darkened walkways within cities, buildings, or on campuses.
- Around the clock, it reduces risk and enhances details when reviewing footage after an incident.
- AcuSense is a cost-effective technology (G2 version camera) that can accurately sense human and vehicle movement versus non-human objects such as rain, animals and leaves, greatly reducing false alarms.
- Video files are pre-sorted into "Human Files" or "Vehicle Files," making it easy to access the video clip you want using these categories and time or location.

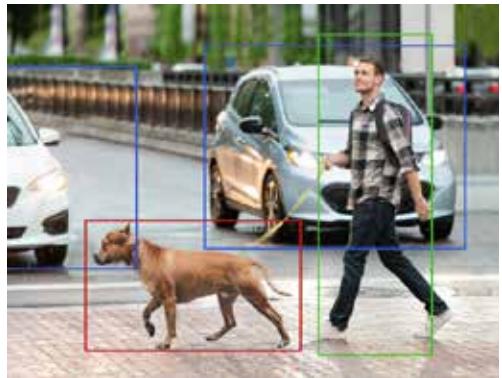

DeepinView Cameras

Hikvision's second generation DeepinView camera line features our latest AI video analytics and Deep Learning technology. The camera is equipped to detect multiple attributes such as clothing colour and accessories with exceptional accuracy.

It can detect and provide automatic alerts for unusual activities in a crowded scene, reducing false alarms by more than 95 percent. DeepinView cameras have a powerful 6-in-1 switchable Deep Learning algorithm in one camera housing that provides detailed and valuable business and operational insights. This helps users quickly locate critical information and video evidence to take immediate action.

The cameras are also equipped with DarkFighter technology for clear images in low lighting conditions. The cameras also feature EXIR 2.0, H265+ video compression technology, support for metadata, five video streams, and up to five custom streams for easy third-party integration.

Seamless streaming improves video quality across varying network conditions. The "-Y" models come equipped with anti-corrosion coating and are NEMA 4x rated for added protection from corrosion and weather elements.

FEATURES

Classifies Target Objects & Performs Attribute Search:

DeepinView Series Cameras can detect multiple type of objects such as a person, a vehicle and license plates. Up to 15 different attributes can be quickly searched and identified, such as clothing colour, age, and whether a person is wearing glasses or carrying an object. DeepinView cameras are fully supported by HikCentral Professional VMS to ensure effective video forensic search, while protecting individual privacy, to reduce incident response time and the cost of resolving investigations.

Exceptional False Alarm Reduction, Improved Alarm Monitoring Accuracy and Operational Efficiency:

Improved DeepinView AI algorithms greatly reduce false alarms by more than 95 percent. The camera can detect human and vehicle overlapping and multiple targets overlapping. It also precisely detects a human with the detection bonding box, excluding the broader range of a human shadow. Set parameters to monitor specific areas more easily with alarms triggered by human only, vehicle only, or human and vehicle.

ePTZ Auto Tracking:

Auto tracking of people or vehicles as it moves through the detection area via ePTZ, displays more details of targeted objects under limited bandwidth, and hardly misses any critical moment video footage. It also saves storage space by only storing video clips of important, tracked objects.

Queue Management:

DeepinView can detect the number of people waiting in line and the wait time for each individual, helping businesses better understand customer wait times, optimize staff levels, and enhance customer experience and satisfaction.

Attribute-Based People Counting and Area Density Control:

Supports people counting when individuals enter and exit a specified area within a certain timeframe. The camera sends a threshold alarm if people density exceeds the predetermined threshold, alerting businesses to reduce occupancy to comply with social distancing and other safety requirements.

Hard Hat Detection:

Enhance compliance and mitigate risk by identifying workers on a construction or other site that are wearing a hard hat. The cameras precisely detect and identify those individuals wearing a hard hat with those that are not to help maintain compliance and safety.

HikCentral Professional VMS

HikCentral Professional, Hikvision's software platform for integrating and managing security systems, is designed to meet a variety of security challenges in one place. On the platform, you can manage individual systems such as video security, access control, security alarms, and more, as well as explore cross-system functionalities. While facilitating protection of people and property, it makes daily operations more efficient and helps users of all kinds to make smarter decisions.

FEATURES

- Active Directory Integration with LDAP
- Powerful Video Search and Playback
- Temperature Screening
- Density Control by People Counting
- Visual Tracking
- Intuitive Fisheye View Expansion and PTZ Controls
- Centralized Evidence Management
- Low Bandwidth Adaptability
- Powerful Map Integration
- Access Control Management
- Visitor Management
- Video Intercom Management
- Intrusion Radar Management
- Dock Station Management
- Dynamic Smart Walls with Graphics Cards and Decoding Devices
- License Plate Recognition Management
- Under Vehicle Surveillance System (UVSS)
- Device Maintenance with Batch Upgrading
- Health Monitoring and Audit Trail Assist Maintenance
- Automated Event, Alarm and Business Intelligence Reports
- Third-Party Integration with OpenSDK or HikCentral Optimus Middleware

EXPANSION LICENSES	DESCRIPTION
HikCentral-VSS-1Camera	Add one camera to VSS base. Orders of multiple camera licenses are provided as one indivisible license key.
HikCentral-ACS-1Door	Add one door/access point to ACS base. Orders of multiple door licenses are provided as one indivisible license key.
HikCentral-RSM-1Site	Add one HikCentral site to RSM base. Orders of multiple site licenses are provided as one indivisible license key.
ADD-ON MODULES	DESCRIPTION
HikCentral-P-SmartWall-Module	VSS add-on smart wall module for integrated video wall management using Hikvision decoders, video wall controllers and third party graphics cards.
HikCentral-ANPR-1Ch	VSS add-on business intelligence module for statistical data reporting from Hikvision people counting, queue analysis and heat mapping cameras without channel limitation.
HikCentral-P-BI Report-Module	VSS add-on for connecting one body camera dock station. All video in connected Dock Stations can be searched by person's name or group name.
HikCentral-P-Visitor-Module	ACS add-on attendance module enables visitor management feature such as visitor registration, Access permission assignation, Visitor log search, etc.
HikCentral-P-Attendance-Module	ACS add-on attendance module enables personnel shift management and attendance reporting functionality for HikCentral 1.2 or later using access control devices.

NINE MAJOR APPLICATIONS TO CHOOSE FROM

All major security needs are covered through nine core security modules, including video, access control, visitor, attendance, entrance & exit, security alarm, intelligence analysis, digital signage, and maintenance. Whatever your situation, you will find what you need here.

A UNIFIED SECURITY SYSTEM THAT ENHANCES MANAGEMENT OPERATIONS

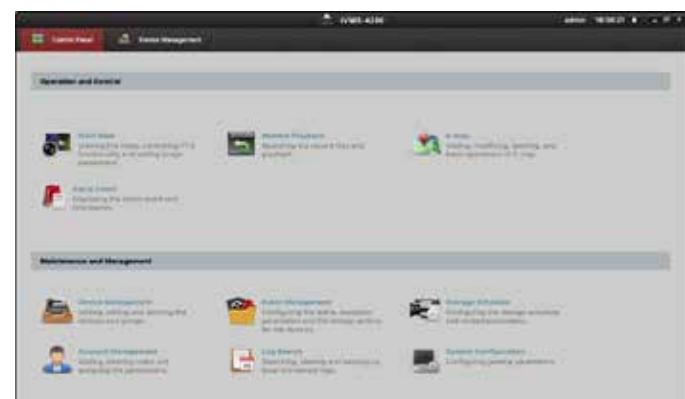

All applications can be connected in an interactive way to build a truly unified architecture, enhancing your operational efficiency. For example, an intrusion alarm and access control with video verification, or perhaps visitor control with pre-registration of vehicles, and much more.

iVMS-4200 Client Software for Microsoft Windows

iVMS-4200 Client Software is a versatile video management client for Hikvision DVRs, NVRs, IP cameras, encoders, access control devices, security control panels, video intercom devices, VCA devices, etc. It provides multiple functionalities, including real-time live view, video recording, video footage search and playback, event and alarm receiving, for the connected devices to meet the needs of small and medium sized projects.

With the flexible structure and easy-to-use interface, the iVMS-4200 Client can be applied to a wide range of surveillance projects in finance, public security, telecommunications, traffic, electricity, education, water conservancy industries, and more.

Hik-Connect P2P/DDNS Platform and Mobile App

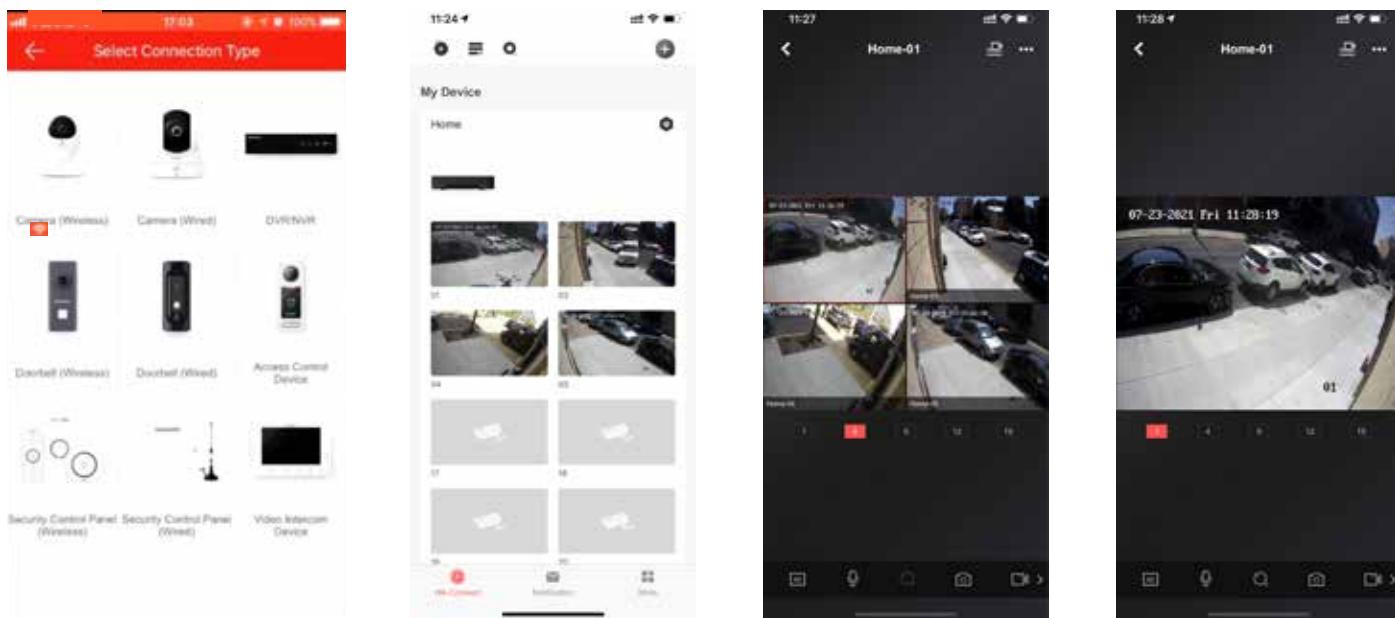

Quickly and securely set up your video surveillance and intercom systems for remote viewing on Android and Apple smartphones and tablets using the Hik-Connect mobile app, and on Windows and Mac computers using the iVMS-4200 client software. Hik-Connect allows users to stay in touch with home and business even when away with live video, event notifications, two-way audio communication, door intercom answering and unlocking, and video playback. See a comparison of the cloud peer-to-peer (P2P) and dynamic domain name system (DDNS) services provided for free by Hik-Connect below.

Hikvision Views Mobile App

The Hikvision Views mobile app is a handy assistant for Hikvision dealers and installers. Easily select and compare Hikvision products with detailed information including pictures, specifications, drawings, and accessories. Use the included calculators for storage, bandwidth, NVR and lens estimations during the system design and product selection stage.

For Installers

**REMOTE DEVICE MAINTENANCE.
ANYTIME. ANYWHERE.**

PROFESSIONAL SOLUTIONS

WHAT IS HIK-PROCONNECT?

Hik-ProConnect is a convergent, cloud-based solution that quickly helps install your security solutions and manage your customers services completely remote.

Previously, installers have used iVMS-4200 and Hik-Connect App to manage their customers' devices. Hikvision is excited to release a new, professional device management software - Hik-ProConnect, which can improve installers' efficiency, smooth installation work flow and create recurring monthly revenues such as cloud attendance service, Health Monitoring, alarm linkages etc.

WHY IS HIK-PROCONNECT USEFUL TO INSTALLERS?

DEVICE BREAKS DOWN AND CUSTOMERS DON'T KNOW?

Health Monitoring helps monitor devices' health status 24/7 and give notifications in time when devices abnormality occurs.

FORGET YOUR DEVICE PASSWORD AND HARD TO RESET?

Remote Password Resetting helps customers' devices to be quickly reset within one minute.

WAIT FOR DEVICE MAINTENANCE FOR LONG TIME

Remove Maintenance allows customers' devices to be quickly maintained or configured remotely.

WANT MORE AMAZING FUNCTIONS?

Flexible Linkage across Devices; Cloud Storage Solution; Cloud-based Attendance Solutions

SmartPro IP Cameras

Hikvision Smart Pro IP solutions include a wide array of products for professional applications. Enhanced with Hikvision smart technologies, Hikvision's smart IP and PTZ cameras, specialty stainless steel cameras and PanoVu multi-sensor cameras, thermal solutions, the HikCentral central management system, and Smart NVRs—are all designed to deliver intelligent security for the modern marketplace. Whether you're securing a large facility or a small or mid-sized business, you will find the most advanced products in the Smart Pro IP product offering.

FEATURES

- High performance, fully loaded project cameras with up to 140 dB WDR (Wide Dynamic Range)
- Up to 32 MP in PanoVu multi-sensor cameras, with lenses ranging from fixed to 50x optical zoom PTZ cameras
- Multiple form factors, including indoor/outdoor dome, bullet, fisheye, covert, upright PTZ, stainless steel and 360-degree panoramic view domes
- Thermal cameras with low, medium and high resolutions and accurate fire detection
- Affordably priced Performance Series Thermal models to enhance any application with unique features such as picture-in-picture, image fusion and temperature monitoring
- Smart analytics add to the high-performance capabilities and include line crossing, intrusion, region entrance and exit, unattended baggage, object removal, scene change, sudden audio increase/decrease, audio loss, object counting, defog and LPR (license plate recognition).

Why DeepinView Cameras?

6-in-1 Switchable Algorithms
Powerful AI with Deep Learning technology, users can easily enable an algorithm manually for dedicated use.

Hikvision LightFighter Technology
The 4 MP camera offers enhanced Wide Dynamic Range (140 dB), intelligently producing images with clear details under strong backlight or in areas with a mix of bright and dark lighting

Auto Iris & P Iris, EXIR 2.0
DeepinView offers both Auto Iris and P Iris options, automatically adjusting the lens opening based on lighting conditions. It is highly adaptive to lighting changes throughout the day, producing high quality images 24/7

Hikvision DarkFighter Technology
Using Hikvision's unique ISP DarkFighter technology with its greater than 1/1.8-inch advanced sensor, the camera delivers clear images and greater detail in low lighting conditions, and at nighttime.

ePTZ Auto Tracking
ePTZ auto tracking of people or vehicles displays more details of targeted objects under limited or unstable network bandwidth.

Multiple Streams
5 defined streams plus 5 custom streams provide convenience for integration with various project applications.

H265+ Video Compression
Effective H.265+ video compression technology for bandwidth and storage savings.

Smooth Streaming
Leveraging unique Machine Learning technology, cameras detect network deficiency and adjust parameters to ensure smoothness of video. Smooth Streaming functionality enhances video quality in a variety of network conditions.

Simple Third-Party Integrations
Provides a rich set of metadata, allowing third-party integrators the flexibility to use intelligent analysis results. Capabilities can be further expanded with customized project development.

Weatherproof & Corrosion Protection
Cameras are water and dust resistant (IP67), vandal-proof (IK10), include an anti-corrosion coating, and are NEMA 4x rated for added weather protection (on -Y models).

Thermal Cameras

Specifically designed for short-range detection, Hikvision HeatPro Thermal Cameras are best suited and priced for residential, commercial and industrial areas. Our HeatPro bi-spectrum series packs thermal and optical cameras together with thermal imaging-based perimeter protection, temperature monitoring, cigarette smoking detection, and more. New features include a white strobe light, speaker for automated voice alarms, and improved human & vehicle filter and hardware.

FEATURES

- Superior Nighttime Visibility
- Outstanding Intrusion Detection with Instant Built-in Alarm
- Line Crossing, Intrusion, Region Entrance/Exit with Human and Vehicle Filtering
- Temperature Exception Alarm Function
- Detect and Locate Fires Early with Advanced Fire Detection

Performance & Value IP Cameras

Hikvision ColorVu cameras deliver crisp, full colour, full-motion video in complete darkness, by using a high performance sensor, a large iris, and gentle supplemental lighting.

For performance on a budget, Hikvision offers its Performance and Value Series products. Equipped with key Smart Pro features, these products deliver greater flexibility with select feature sets, and several models are available in an optional black finish. A selection of Performance cameras and Value PTZs include DarkFighter technology to enhance performance in low light conditions. And Value Series cameras are now available in 8 MP (4K UHD) resolution.

FEATURES

- Hikvision's H.265+ video compression technology captures surveillance video using a decreased bitrate, reducing bandwidth requirements and storage costs
- EXIR 2.0 (EXtended InfraRed) technology uses the latest manufacturing components and techniques to improve low light performance, efficiency and lifetime of the IR device
- Powered by DarkFighter technology in Performance Series cameras and Value PTZs improves video quality in low light conditions

APPLICATIONS

Office Buildings, Warehouses and Factories

Parking Lots

Residential

Value Network PTZ Camera

Hikvision ColorVu imaging technology provides vivid images and video around the clock, even in zero-light environments, by using a high-performance sensor, a large iris, and gentle supplemental lighting.

Darkness provides cover for theft, trespassing, and other crimes. While infrared illumination brings out more details in nighttime lighting conditions, it only provides black and white images.

With ColorVu cameras, the true colour of a person's clothing or the colour of a vehicle is clearly visible in live viewing mode and in recorded video footage—during daytime, nighttime, and poor lighting conditions.

FEATURES

- Clear, full colour images—day and night—with brilliant detail and clarity for more rapid identification of intruders.
- Improved safety for employees and customers walking in parking lots or other poorly lit areas at all times of day and night. It illuminates darkened walkways within cities, buildings, or on campuses.
- Around the clock, it reduces risk and enhances details when reviewing footage after an incident.

Network Video Recorders

Meeting all bandwidth and storage utilization requirements, Smart Pro NVRs support recording of up to 12 MP camera resolution, Ultra High Definition (UHD) output up to 4K, up to 240 TB of storage capacity, and H.265+ video compression to increase storage space by 50 to 70 percent.

Our Performance NVRs include the 2nd generation AcuSense series that filters false alarms and will recognize targets, classifying them as human, vehicle, or other. Hikvision AcuSense works by disregarding movements in nature, such as animals, rain or leaves, while triggering alerts when vehicles or humans are detected. The Quick Target Search feature easily locates the most important recordings, saving time and money when reviewing alarm and event activity.

Our popular Plug and Play NVRs provide easy installation and operation. These Value and Performance NVRs manage bandwidth and storage with H.265+ video compression technology. The newly released GUI features a more concise design. There are 5 modules for quick access and 2 modes for more efficient operation. The easy mode shows frequently used configurations. And the expert mode displays all configurations provided to professional users.

FEATURES

- High performance, fully loaded NVRs from 4- to 256-channel inputs
- H.265+ compression technology that minimizes bandwidth
- 4K Ultra High Definition (UHD) HDMI output and 1080p VGA outputs
- Storage capacity from 2 TB to 240 TB, for months of recording with built-in support of RAID 1, 5, 6 and 10 data redundancy storage NVRs
- Performance and Value Series Plug and Play NVRs ensure easy installation and configuration

Value Express IP Kits

Value Express IP Kits are complete recorder and camera kits for single-site applications. Kits contain a 4K UHD recorder and multiple cameras in a single box, suitable for DIY residential or small business applications. These IP Kits include 4-, 8-, or 16-channel recorders along with 4, 6, or 12 cameras respectively.

FEATURES

- Includes 4 MP/4 K cameras with 2.8 mm lens
- Record up to 4K/8 MP resolution on IP cameras with 4K UHD output
- H.265+ video compression reduces data and storage usage by up to 80 percent
- Cameras include latest EXIR 2.0 illumination up to 100 ft. (30 m)
- Plug and Play operation with built-in PoE ports for ease of installation

Wi-Fi IP Kits

Wi-Fi IP Kits are complete recorder and camera kits for value-oriented users. Kits contain a 4 MP Wi-Fi recorder and multiple Wi-Fi cameras in a single box, suitable for DIY residential or small business applications. These IP Kits include 4-channel recorders along with 4 cameras respectively.

FEATURES

- Includes 4 MP cameras with 2.8 mm lens
- Record up to 4 MP resolution on Wi-Fi IP cameras with 2 MP HDMI/VGA simultaneous output
- H.265+ video compression reduces data and storage usage by up to 80 percent
- Automatic repeater function provides up to 393 ft. of Wi-Fi range
- Plug and Play operation with pre-paired cameras and NVR for ease of installation

TurboHD™ Kits

Hikvision now offers complete recorder and camera kits for single-site applications. The kits contain a recorder and multiple cameras in a single box, suitable for DIY residential or small business applications. These TurboHD Kits include 4- and 8-channel recorders along with 4 and 6 cameras respectively.

FEATURES

- Includes 1080p/5 MP cameras with 2.8mm lens
- Record up to 5 MP resolution HD over analog cameras
- Up-the-Coax camera menu programming
- Auto-detect HD-TVI/CVBS inputs
- Installed 1 or 2 TB HDD included

TurboHD™ Digital Video Recorders

TurboHD Plug and Play DVRs offer several models scalable for small to mid-sized businesses with 4- to 32-channels. All TurboHD DVRs are Tribrid—a true revolution in the professional surveillance market— supporting traditional analog (CVBS), HD-TVI, and IP cameras. Thanks to auto-sensing technology, installation is extremely easy.

FEATURES

- High performance, fully loaded project Pro DVRs have extra capacity and RAID for larger project applications, up to 12 MP IPC connectivity and support Point-of-Sale (POS) interface
- Tribrid DVRs include H.265+ video compression, reducing storage requirements
- On-Screen-Display (OSD) menu available up-the-coax (UTC) to manage camera settings
- Value Series DVRs are our most popular DVRs and offer budget-priced enhanced performance models, up to 8 MP IPC connectivity and Power over Coax (PoC) models
- Value Express includes DVRs outfitted for 4- and 8-camera systems as kits, and are flexible enough to accommodate your record-keeping needs

TurboHD™ Kits

Hikvision now offers complete recorder and camera kits for single-site applications. The kits contain a recorder and multiple cameras in a single box, suitable for DIY residential or small business applications. These TurboHD Kits include 4- and 8-channel recorders along with 4 and 6 cameras respectively.

FEATURES

- Includes 1080p/5 MP cameras with 2.8mm lens
- Record up to 5 MP resolution HD over analog cameras
- Up-the-Coax camera menu programming
- Auto-detect HD-TVI/CVBS inputs
- Installed 1 or 2 TB HDD included

EI Smart Managed Network Switches

Hikvision EI Smart Managed Switches offer unique features such as Visualized Topology, Network Health Monitoring, Real-Time Alarm with either iVMS-4200 or HikCentral. These features can greatly reduce network downtime, allowing network administrators to quickly isolate an issue, making it easier to repair and maintain.

FEATURES

- Visual Topology Management
- Network Health Monitoring
- Real-Time Alarm and Device Status
- IP Camera Preview and Control
- Extended Mode up to 984 ft
- Up to 6kV Surge Protection

Video Intercom Solutions

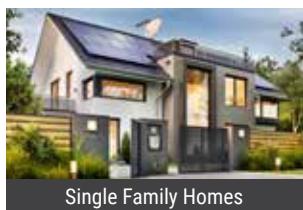

Hikvision's 2nd generation modular IP & two-wire intercom systems are stylish, affordable, and scalable for applications of all sizes. Hikvision's complete intercom package hosts an abundance of functionality, from traditional nametag and keypad modules, as well as innovative new features. The user answers the door at the indoor station and can easily unlock the door with a simple push of a button. The system is also fully integrated with the Hik-Connect app to provide the user with full access to their door from virtually anywhere, anytime. The intercom can also be added to Hikvision NVRs or DVRs as an IP camera for front door monitoring and is suitable for a variety of applications.

Combining convenience and versatility, the Hikvision IP & Two-Wire Video Intercom System propels home and business interactive video security one step further.

FEATURES

- Full HD video quality at your door, capable of integrating with Hikvision recorders
- Clear audio communication with echo and noise cancellation
- 180-degree 2 MP Fisheye HD camera with IR for clear video in the dark
- Fully integrated with the Hik-Connect cloud platform and smartphone app enables user to speak to visitors and unlock doors remotely
- User-friendly 7-inch touch screen LCD also functions as a monitor for Hikvision cameras
- Choose the best fit for your application with flexible and customizable modular design
- Access control module and keypad module allow tenant entrance using key card or passcode
- All door and indoor stations are managed via network cables or two-conductor cables, making both physical connections and software management easy to perform
- Multiple door stations can be programmed to be answered by multiple indoor stations
- The Modular IP Video Intercom Kit (DS-KIS602) bundles a door station, indoor station, MicroSD card and a PoE switch
- The Two-Wire Intercom Kit (DS-KIS702-P/DS-KIS701) bundles a door station, indoor station and power/data distributor

You're Always at Home with Hikvision's Video Doorbell

SMART WI-FI DOORBELL CAMERA	
MODEL	DS-HD1
MOBILE CALLING	Calls Hik-Connect Mobile App
CAMERA	3 MP
SENSOR SIZE	1/2.8" Starlight Sensor
LENS, FIELD OF VIEW	180° Vertical FOV
IR RANGE MAX	10 ft
VIDEO COMPRESSION	H.264
AUDIO INPUT/OUTPUT	Built-In Omnidirectional Microphone Built-In Loud Speaker
ALARM INPUT/OUTPUT	Customized Alert Area PIR Sensor
RATINGS	2.4/5 GHz Dual-Band Wi-Fi
OPERATING TEMPERATURE RANG	Wi-Fi
MODULE I/O	MicroSD Card Storage (Up to 128 GB)
POWER REQUIREMENTS (MAX)	16–24V AC, 5 W
WORKING TEMPERATURE	-30 to 60 °C (-22 to 140 °F)
RATINGS	IP65
DIMENSION (H x W x D)	130 x 46.3 x 21.5 mm (5.12 x 1.83 x 0.85")
BRACKETS	Includes Flat & Angled Mounting Plates

Modular IP Video Intercom Kit

DS-KIS602

Models Included:

DS-KD8003-IME1/Surface

DS-KH6320-WTE1

Accessories Included:

16GB Micro SD Card

DS-3E0105P-E/M

Key Features:

- Guests call from the video door station with a single button
- Host receives calls and can unlock door from indoor station and Hik-Connect mobile app
- Make room-to-room audio calls between indoor stations
- Indoor Station records messages on the included micro SD card
- Indoor station monitors door station(s) and up to 16 cameras
- Easy operation with UI 2.0
- All devices use standard PoE

Two-Wire Video Intercom Kit

DS-KIS702-P

Models Included:

DS-KD8003-IME2

DS-KD-ACW1

DS-KH6320-WTE2

DS-KAD704

Accessories Included:

16 GB Micro SD Card

Power Supply

Key Features:

- 2 Mega Pixel HD fisheye camera with night vision and 180° wide viewing angle
- Plug & play two-wire and IP based video intercom kit
- Guests call from the video door station with a single button
- Simplified user interface indoor station with 7-inch touch screen
- Host receives calls and can unlock door from indoor station and Hik-Connect mobile app
- Make room-to-room audio calls between indoor stations
- Indoor station records messages on the included micro SD card
- Indoor station monitors door station(s) and up to 16 cameras
- Metal outdoor panel, waterproof, IP65 rating

Access Control Solutions

Hikvision access control solutions offer a complete lineup of devices from multi-door control panels and card readers to standalone, fingerprint, video, time and attendance, and temperature screening terminals. These products are compatible with Hikvision's free iVMS-4200 Client Software. Access control solutions integrate into existing Hikvision video surveillance systems, delivering a versatile, full-service security system. Our access control solutions easily integrate with our NVRs and DVRs, combining entry/exit management with visual records.

FEATURES

- Bundled with iVMS-4200 software to manage users, permissions and rules for the system
- Supports Wiegand protocol readers and RS485 protocol which uses simpler wiring and permits longer transmission distances
- An Access Control Kit (DS-KIT2DRACP) combines a controller, two readers, and a set of proximity cards for a system that is easy to purchase and install
- Multiple authentication methods are available including card authentication, keypad passcode, and fingerprint ID authentication. The user has the ability to request two different types of authentication methods to ensure maximum security.
- Advanced anti-pass back and multi-door interlocking features give the user a truly exceptional security environment

Metal Detector with Mask Detection

Hikvision's Walkthrough Metal Detector with Mask Detection uses Deep Learning Algorithm to perform safe, contactless mask detection for employees, staff and visitors, while scanning for prohibited items.

The ISD-SMG318LT-D equipped with a turret camera is capable of detecting mask at a safe distance. Built-in LEDs are on both metal detector sides, and an audible alert sounds when prohibited object is detected.

FEATURES

- LEDs on detector sides for enhanced detection of prohibited objects
- 7-inch LCD touch screen indicates real-time and historical temperature readings history, number of people passed through and prohibited items detected
- Highly Accurate: Can detect objects as small as a paper clip
- Middle Detector Section Accuracy: Exclude items like belt buckles while identifying copper, aluminum, and zinc (over 0.33 lbs.), including items such as knives and guns
- Indicates the area of the body where metal is detected (18 areas)
- Triggers LEDs and voice prompt when abnormal temperature is detected
- Modularized components for easy transportation and installation

MODEL	ISD-SMG318LT-D
CAMERA	Optical: 4 MP 2688 x 1520 @ 25 fps, WDR, 4 mm Thermal: 160 x 120, 3 mm, Aperture 1.1
INPUT INTERFACE	1x Alarm Input 1x Audio Input
OUTPUT INTERFACE	1x Alarm Output 1x Audio Output
PROTECTION LEVEL	RJ45
DISPLAY SCREEN	7" LCD Touch Screen
LOCAL INPUT	Touchscreen
AUDIO	RJ45
RATINGS	Turret Camera: IP66 Walk-Through Detector: IP53 IC, CE, FCC, UL
WORKING TEMPERATURE	Turret camera: 10° to 35° C (50° to 95° F), <95% RH Walk-through detector: -10° to 55° C (14° to 131° F), 99%, RH
POWER REQUIREMENTS (MAX)	12 VDC, 3.15A, 36 W (with power adapter)

HIKVISION UNAUTHORIZED DISTRIBUTORS POLICY

Hikvision Canada Inc. (Hikvision Canada), sells products only through authorized distributors. We value our industry partners and are proud of the relationships we have developed to help expand the use of our innovative technology products and solutions. Hikvision's authorized distributors serve as an important link in the Hikvision Canada value chain by providing excellent pre- and post-sale customer service, including firmware updates and sales engineering support.

Not every distributor advertising Hikvision products has been authorized by Hikvision Canada to advertise or sell those products. We warn potential customers against purchasing products from unauthorized distributors. Unauthorized distributors may be selling products that are counterfeit, used, have modified firmware or are otherwise damaged. The Hikvision warranty is void, per company policy, on any product that is not purchased through a Hikvision Canada authorized distributor.

Purchasing through authorized Hikvision Canada distributors ensures that you receive the benefits of technical support, project registration, dealer loyalty programs and advance replacement of any camera, recorder, monitor, video server, or software, in addition to Hikvision Canada's full warranty. Additionally, products purchased through authorized distribution partners have additional customized features and capabilities that distinguish the North American offering.

If you have any questions or concerns about the official status of your Hikvision distributor before your purchase, please contact Hikvision Canada Customer Service at csr.usa@hikvision.com to confirm their authorized status.

Thank you for your continued support of our industry-leading video surveillance products.
