

# MAXPRO® SERIES WORKSTATIONS

## Enterprise Class Digital Recording System

Honeywell's MAXPRO® NVR (network video recorder) and MAXPRO VMS (video management system) are an industry-leading enterprise class digital CCTV solution.

MAXPRO workstations are the front end of the MAXPRO video surveillance system delivering live and recorded video through an intuitive graphical user interface. The workstations come with T400 graphics card and are optimized for delivering crisp clear video images.

The MAXPRO workstations are powered by industry leading Intel processors and are tested to the rigorous demands of a video system. They are available in desktop (mini) or tower configurations where the tower workstations have the option to be rack-mountable. The number of workstations is scalable within the MAXPRO system to meet any application.

## FEATURES AND BENEFITS

### MINI WORKSTATION (DESKTOP)

- Used with up to 2 monitors
- Ideal form factor workstation for small spaces
- 1080p at 30FPS (4Mbps)
- Small stand included

### STANDARD TOWER WORKSTATION

- Used with up to 4 monitors
- Single T400 GPU card included
- Optional T1000 and RTX4000 graphics cards are factory upgrade only
- 1080p at 30FPS (4Mbps)
- Rack mount accessory, sold separately
