

FLEXIDOME Wall and Pipe Mounts

VDA-WMT/PMT-DOME

BOSCH

1 Safety

1.1 Safety precautions

**WARNING!**

Medium risk: Indicates a potentially hazardous situation.
If not avoided, this could result in minor or moderate bodily injury.

**CAUTION!**

Low risk: Indicates a potentially hazardous situation.
If not avoided, this could result in property damage or risk of damage to the unit.

1.2 Important safety instructions

Read, follow, and retain for future reference all of the following safety instructions. Heed all warnings on the unit and in the operating instructions before operating the unit.

1. **Safety check** - Safety checks should be performed upon completion of service or repairs to the unit to ensure proper operating condition.
2. **Installation** - Install in accordance with the manufacturer's instructions and in accordance with applicable local codes.
3. **Attachments, changes or modifications** - Only use attachments/accessories specified by the manufacturer. Any change or modification of the equipment, not expressly approved by Bosch, could void the warranty or, in the case of an authorization agreement, authority to operate the equipment.

1.3 Important notices

Disposal - Your Bosch product was developed and manufactured with high-quality material and components that can be recycled and reused. This symbol means that electronic and electrical appliances, which have reached the end of their working life, must be collected and disposed of separately from household waste material. Separate collecting systems are usually in place for disused electronic and electrical products. Please dispose of these units at an environmentally compatible recycling facility, per *European Directive 2002/96/EC*.

Environmental statement - Bosch has a strong commitment towards the environment. This unit has been designed to respect the environment as much as possible.

**WARNING!**

For a secure installation use stainless steel or zinc plated fasteners.

**CAUTION!**

If these mounts are used outdoors ensure that the equipment they are used with is also suitable for outdoor use.

Unpacking

Unpack carefully and handle the equipment with care. The packaging contains:

- Mount
- Teflon tape
- Anti-seize grease
- Rubber gasket (with wall mount)

If equipment has been damaged during shipment, repack it in the original packaging and notify the shipping agent or supplier. The shipping carton is the safest container to transport the unit. Save it for possible future use.

3 Installation

This installation should be made by qualified service personnel and conform to the National Electrical Code and applicable local codes.

3.1 Installing the Wall Mount

Figure 3.1 Wall Mount installation

1. Determine location for wall mount.
2. Use the mount as template to mark the location of the mount holes on the wall.
3. Drill holes for anchors and install anchors into wall.
4. Drill a fifth hole in the wall that is aligned with the feed-through tube in the mount. This hole is used to feed wires through the tube.
5. Use approximately 10 turns of the teflon tape on the thread of the mount to ensure protection against water/dirt ingress. Apply some anti-seize grease to the thread before attaching.
6. Attach the mount to the wall.
7. Connect all wires to the camera.
8. Pull any excess wire back into the mount tube.
9. Attach the camera to the mount with the three M5 screws supplied.
10. Insert the rubber gasket between the wall mount dome and the camera dome housing cover.
11. Attach the camera dome housing cover.

3.2 Installing the Pendant Pipe Mount

Figure 3.2 Pendant Pipe Mount installation

1. Determine location for pipe mount.
2. Use the four holes in flange as template to mark drill holes in the ceiling.
3. Drill the four holes into ceiling.
4. Drill a fifth hole in the center of four-hole pattern. This hole is used to feed wires through the tube.
5. Use approximately 10 turns of the teflon tape on the thread of the mount to ensure protection against water/dirt ingress. Apply some anti-seize grease to the thread before attaching.
6. Assemble flange to pipe and pipe to cap.
Note: Select pipe length of 20 cm (7.9 in), 30 cm (11.8 in), or 50.5 cm (20 in).
7. Pull wires through pipe starting at flange end.
8. Attach the pipe mount to the ceiling.
9. Connect all wires to the camera.
10. Pull any excess wire back into the mount tube.
11. Attach the camera to the mount with the three M5 screws supplied.
12. Attach the camera dome housing cover.

4 Dimensional outlines

The following illustrations depict the dimensional outlines for the wall and pendant pipe mounts.
