Further, ground shipment of physical Milestone Husky NVR units is included in the MSRP price in applicable regions.

Price list revision date: December 11, 2015

Order Handling

All XProtect products can be ordered by distributors on the Milestone website (www.milestonesys.com) via Milestone's Online Order System (MOOS), unless otherwise specified.

Orders from Europe, the Middle East and Africa (EMEA) and Asia Pacific (APAC) are handled by our European office:
9:00 – 16:00 CET
Phone: +45 88 300 684
Email: purchase@milestonesys.com

Orders from the Americas are handled by our North American office:
7 a.m. – 5 p.m. PST
Phone +1 503 350 1100
Email: us-sales@milestone.us

Manual orders are subject to an order handling fee of 110 USD per order. Orders within North America and Latin America are handled free of charge. Orders placed on Milestone's website (www.milestonesys.com) via MOOS are handled free of charge.

Delivery

All software products, including associated documentation are delivered for free via Milestone's download site on www.milestonesys.com. Milestone can optionally deliver all software products on physical media (DVD). Physical product media can be ordered in MOOS using the following ordering item:

License ID	Name	MSRP USD	Note
XP-MEDIA	XProtect Product DVD	100.00

The following products can only be sold by certified resellers, who have successfully completed the Milestone Advanced Certification and when approved by the Milestone Channel Business Manager:

• XProtect® Expert
• XProtect® Corporate
• XProtect® Smart Wall
• XProtect® Retail

Milestone Care^{TM}

Milestone Care is a portfolio of operational maintenance and support services available to Milestone end-customers. Milestone Care consists of four different service offerings: Milestone Care™ Basic, which accompanies every Milestone product, Milestone Care™ Plus, Milestone Care™ Premium and Milestone Care™ Elite. Milestone Care is an extension to the former Software Upgrade Plan (SUP), where Milestone Care Plus replaces SUP with the same core services and commercial terms.

This four-tier offering enables end-customers to select the right level of coverage to match their specific needs. Milestone Care ensures Milestone solutions are comprehensively safeguarded, in terms of investments, updates & upgrades, and critical incident response. Milestone Care is a new support and maintenance offering designed for end-customers, empowering Milestone partners to deliver and sell a complete service offering.

Milestone Care Basic

We recognize the business-critical nature of our software, and we are committed to delivering a dependable, high-performing system to our customers. Therefore every Milestone solution includes a complimentary extensive online support portal consisting of a series of excellent online guides, business-hour phone support for partners and an online forum for sharing best practices. Milestone Care Basic also grants access to all new service releases of the purchased product and a unique trade-in policy, where the end-customer receives 30 percent credit for their current Milestone product when upgrading to a newer or more advanced Milestone product.

Milestone Care Plus

Milestone Care Plus enables end-customers to choose the best solution for today and the future. As Milestone adds new functionality to its products on a regular basis, Milestone Care Plus lets end-customers keep up with every innovation while protecting their initial investment. Milestone Care Plus grants the end-customer access to new versions of the purchased product, and offers a unique trade-in policy, where the end-customer receives 100 percent credit for their current Milestone product when upgrading to a newer or more advanced Milestone product.

Milestone Care Plus replaces the former Software Upgrade Plan, where customers with active SUP coverage will be converted to Milestone Care Plus.

How to purchase
Milestone Care Plus can be purchased together with the purchase of a Milestone video surveillance product. There is a grace period of 30 days from the initial purchase of a Milestone video surveillance product. There is also a grace period of 30 days from the expiration of an existing Milestone Care Plus coverage, in which the end-customer can purchase Milestone Care Plus under normal terms.

If an end-customer wants to purchase Milestone Care Plus outside the above mentioned grace periods, this is possible by purchasing a three-year opt-in Milestone Care Plus service option at 18 percent per year to get into the program. This applies to end-customers who have never purchased Milestone Care Plus, and end-customers who used to have Milestone Care Plus but let it expire.

Opt-in Milestone Care Plus is not available on discontinued products.

Coverage period
The price of Milestone Care Plus is approximately 18 percent of the retail price of a new product, per year. However, multi-year plans offer reduced annual costs when Milestone Care Plus is purchased for a two-, three- or five-year period. For example, with a five-year Milestone Care Plus package, the cost is approximately 12 percent of the retail price of a new product, per year. For multi-year plans, the total cost must be paid up front.

The minimum Milestone Care Plus coverage period for any new Milestone product is one year. Milestone Care Plus can however also be purchased in increments of days, which is beneficial for installations that want to have their Milestone Care Plus expire on a certain date (e.g. in alignment with a budgeting period). Please note that special rules apply to purchases of additional device licenses when extending existing systems (as defined below).

Complimentary Milestone Care Plus coverage
Recognizing the value of Milestone Care Plus, many of our products include an initial term of complimentary Milestone Care Plus coverage, according to the table below.

Milestone Product	Milestone Care Plus
XProtect Essential	One year
XProtect Express	One year
Milestone Husky M10	Three years
Milestone Husky M30	Three years
Milestone Husky M30	Three years

Any extension purchases of additional device licenses will be covered by Milestone Care Plus for the remaining time period.

Mandatory Milestone Care Plus coverage
Milestone Care Plus is an optional service offering for most XProtect VMS products. However, for XProtect Expert and XProtect Corporate it is mandatory to purchase Milestone Care Plus for minimum one year to ensure adequate coverage for the initial roll-out period. Milestone Care Plus is also mandatory for any XProtect VMS product that is used together with the XProtect Retail add-on product. This applies to the base license and all device licenses in the underlying XProtect VMS system.

Milestone Care Plus coverage on XProtect Add-on products

As of January 1, 2016 it is no longer necessary to purchase separate Milestone Care coverage on the XProtect Add-on product used together with an XProtect VMS or Milestone Husky NVR product. The XProtect Add-on product will be covered by the Milestone Care service level of the underlying VMS or NVR product without separate charge.

As consequence, all SKUs related Milestone Care Plus and Care Premium for the XProtect Add-on product will be removed with effect January 1, 2016.

Milestone Care Plus coverage in connection with system expansions

Milestone Care Plus is linked to an individual system's base license. Milestone Care Plus for system expansions must be aligned with the main Milestone Care Plus. When enhancing an existing XProtect system with additional cameras, the end-customer can maintain full Milestone Care Plus coverage in two ways:

1. Keep the original Milestone Care Plus coverage period

An end-customer can maintain an existing Milestone Care Plus renewal date when purchasing additional cameras, by purchasing Milestone Care Plus coverage for the additional device licenses on a daily basis (the required amount is automatically calculated by the Milestone online ordering system). This is useful if the main Milestone Care Plus renewal date is aligned with the end customer's calendar or fiscal year.

2. Extend the original Milestone Care Plus coverage period

The end-customer can purchase one or more years of Milestone Care Plus coverage when extending an existing system. This Milestone Care Plus service coverage which will be used to calculate a new and prolonged Milestone Care Plus coverage period for the total system. The new Milestone Care Plus coverage period is calculated based on the value of the remaining main Milestone Care Plus coverage period and the size and nature of the system expansion.

If an end-customer does not want to purchase Milestone Care Plus coverage for the system expansion after possible mandatory initial Milestone Care Plus coverage period, the main Milestone Care Plus will be terminated from the purchase date of the system expansion. Any remaining value of the main Milestone Care Plus coverage period is not refunded. For details on how to ensure continuous Milestone Care Plus coverage in conjunction with system expansions, please contact Milestone Partner Service and Sales Support.

Milestone Care Plus coverage in connection with upgrades

Milestone Care Plus coverage is linked to a specific Milestone product. This means that end-customers when upgrading to a more advanced product, for example when upgrading from XProtect Professional to XProtect Enterprise, must also upgrade their Milestone Care Plus in order to maintain coverage. To enable easy upgrades between different XProtect products, Milestone credits the price of the remaining unused Milestone Care Plus coverage period to the price of the new Milestone Care Plus.

XProtect Essential and XProtect Express include one year complimentary Milestone Care Plus coverage. If an end-customer decides to upgrade these products to a newer version or upgrade from XProtect Essential to XProtect Express, the remaining complimentary Milestone Care Plus coverage will be transferred to the new product. end-customers will not be entitled to receive an additional year of Milestone Care Plus coverage with the new product.

If an end-customer decides to upgrade XProtect Essential or XProtect Express to XProtect Professional or a more advanced product, the remaining complimentary Milestone Care Plus coverage will not be transferred to the new product. The end-customer will therefore need to purchase a separate Milestone Care Plus coverage for the new product.

Milestone Care Plus on Milestone Husky NVR Units

All Milestone Husky NVR unit are shipped with 3 years included Milestone Care Plus coverage. The included Milestone Care Plus coverage can be extended to maximum 5 years coverage in total, by purchasing additional coverage. The extension can be made in conjunction with the initial purchase of the unit, or at any time before the expiry of the 3 years included Milestone Care Plus period.

Milestone Care Premium

Milestone Care Premium offers end-customers with business-critical video surveillance solutions around-the-clock expert technical support. Milestone Care Premium is ideal for larger end-customers with high security installations that require direct access to the Milestone Technical Support Team to help solve challenging and time-sensitive technical support requests.

How to purchase

Milestone Care Premium can be purchased at any time. However, Milestone Care Plus must be purchased as a prerequisite and must be valid for the same period as the Milestone Care Premium. An end-customer can only have one Milestone Care Premium contract, which must cover all Milestone products that the end-customer has purchased. That means that one Milestone Care Premium contract will cover XProtect VMS and Milestone Husky NVR products, plus possible related XProtect add-on products.

A start-up fee (MCPR-START) is charged per each new end-customers signing up for the Milestone Care Premium service. This one-time fee is only paid once per consecutive Milestone Care Premium coverage period. However, if the Milestone Care Premium is not renewed within 30-days from the expiration of an existing Milestone Care Premium coverage, a new start-up fee will be charged, if continued coverage is wanted.

Coverage period

The price of Milestone Care Premium is approximately seven percent of the retail price of a new product, per year. However, multi-year plans offer reduced annual costs when Milestone Care Premium is purchased for a two-, three- or five-year period. For example, with a five-year Milestone Care Premium package, the cost is approximately 5.5 percent of the retail price of a new product, per year. For multi-year plans, the total cost must be paid up front.

The minimum Milestone Care Premium coverage period is one year. Milestone Care Premium can however also be purchased in increments of days, which is beneficial for installations that want to have their Milestone Care Premium expire on a certain date (e.g. in alignment with a budgeting period).

Milestone Care Premium coverage in connection with system expansions

An end-customer can only have one Milestone Care Premium contract with a common coverage period for all Milestone products. This implies that extensions (e.g. additional devices) made to existing products, or purchases of additional products, must be aligned with the expiration date of the existing Milestone Care Premium contract. This is done by purchasing Milestone Care Premium coverage for the additional device licenses and/or the additional products on a daily basis to match the existing expiration date of the Milestone Care Premium contract.

If an end-customer does not want to purchase Milestone Care Premium coverage for the system expansion, the main Milestone Care Premium contract will be terminated from the purchase date of the system expansion. Any remaining value of the main Milestone Care Premium coverage period is not refunded. For details on how to ensure continuous Milestone Care Premium coverage in conjunction with system expansions, please contact Milestone Partner Service and Sales Support.

Milestone Care Premium coverage in connection with upgrades

When upgrading an existing Milestone product to a newer or more advanced product, Milestone credits the price of the remaining unused Milestone Care Premium coverage period on the existing product, to the price of the new Milestone Care Premium for the upgraded product. The expiration date of the Milestone Care Premium contract will remain unchanged.

Milestone Care Elite

Milestone Care Elite support is a high-end, completely customizable service offering for end-customers operating mission-critical video surveillance installations. Milestone Care Elite is ideal for end-customers requiring direct, personalized and prioritized technical support.

How to purchase

Milestone Care Elite is a highly customizable support service that is subject to individual service contracts with the end customer. The actual price of Milestone Care Elite is dependent on the number and size of covered products and the specific commitments in the service level agreement. For further information, please contact Milestone Partner Service and Sales Support.

Coverage period

The minimum contract period for any new Milestone Care Elite coverage is one year. Multi-year plans can be negotiated, dependent on actual end-customer needs.

Trade-in

Milestone currently offers a unique trade-in policy for our software solutions, which allows customers to protect investments already made in XProtect software when:

• Upgrading to a newer version of the same software
• Growing their installations and upgrading to a more advanced product (when applicable), for example in conjunction with an upgrade from XProtect Enterprise to XProtect Corporate

When upgrading to a newer version of a product or purchasing a more advanced product:

• Milestone Care Plus entitles customers to be refunded 100 percent of the current recommended retail price when trading-in licenses for their existing XProtect products.
• Milestone Care Basic entitles customers to be refunded 30 percent of the current recommended retail price of their existing product.

The specific Milestone products covered by the trade-in policy and possible specific conditions, are defined in this price list for each applicable product.

End user License Agreement

The deployment and use of any Milestone XProtect product is subject to the terms and conditions defined in Milestone XProtect end user license agreement (EULA). Please refer to the EULA for full details on the terms and conditions applicable to the specific XProtect products. The latest version of the EULA can be found on Milestone's website: www.milestonesys.com.

XProtect VMS Products
XProtect Go

XProtect Go is a free version of Milestone's market-leading XProtect video management software and it is designed for small business installations. With a wide set of easy-to-use features, XProtect Go enables users to explore Milestone's XProtect software and discover the FALSE benefits of IP video and the Milestone open platform. It is a complete software package that comes with three different interfaces to view surveillance installations from most Internet-enabled computers and mobile devices. Seamless upgrade possibilities to Milestone's full-featured XProtect product line make XProtect Go a risk-free entry into a reliable and secure IP video surveillance solution.

XProtect Go can be downloaded from the Milestone website. User registration is required after 30 days with re-registration required on a yearly basis. As XProtect Go is a free product, it does not have an SKU-number.

MILESTONE CARE PLUS OPTIONS

There are no Milestone Care options available for XProtect Go.

XProtect Essential

XProtect Essential is easy and affordable open platform video management software (VMS) for single-location businesses requiring basic surveillance. It is ideal for installations that primarily capture video recordings of incidents and reactively conduct investigations. A standard viewing interface, web-based interface and mobile application provide flexible access to live and recorded video for users of all skill levels. XProtect Essential is an entry-level product that can effortlessly add cameras and quickly identify video sequences with easy-to-use search tools.   XProtect Essential is compatible with Milestone Interconnect allowing multiple XProtect Essential sites to be connected to an XProtect Corporate system.

XProtect Professional

XProtect Professional is comprehensive open platform video management software (VMS) for mid-sized installations with multiple buildings. XProtect Professional offers users a complete visual overview of their surveillance installation with interactive maps revealing camera locations. Alarms displayed directly in the maps make it easy to quickly identify and address incidents throughout the entire system. If an incident occurs, efficient video search tools enable users to easily find relevant video clips and export evidence. Users with different skill levels and system access can view live and recorded video through three convenient, intuitive viewing interfaces including Milestone Mobile for on-the-go access.

XProtect Enterprise

XProtect Enterprise is advanced open platform IP video management software (VMS) for medium and large multi-site installations. It has comprehensive features that help operators view multi-site locations with an unlimited number of cameras and react quickly to incidents and efficiently export video. XProtect Enterprise includes configuration wizards and automatic hardware detection which significantly reduce the time and cost of installing surveillance systems with many cameras. The software provides exceptional situational awareness with multi-layered, interactive maps, a sophisticated alarm handling and a unique camera navigator for tracking moving objects.

XProtect Expert

XProtect Expert is advanced open platform IP video management software (VMS) for medium and large installations. Its powerful central management interface allows large systems with multiple Recording Servers to be efficiently managed as one uniform system. Using scheduled and event-driven rules, it is easy to automate security actions and control external systems, reducing the amount of manual tasks. Three unique viewing clients provide seamless access to live and recorded video for different personnel responsibilities. With multi-layered maps and the option to add on XProtect® Smart Wall, the software provides situational awareness across multiple locations. Ideal for daily users and operators who want sophisticated live monitoring, XProtect Expert has efficient alarm handling and the ability to flag suspicious incidents for later review.

N.B. Milestone Care Plus is mandatory for the whole XProtect Expert installation (applicable to both XPETBL and XPETDL licenses) during the first year after the initial purchase of the Base License (XPETBL).

NOTES

1) XProtect Expert Base License (XPETBL) allows the XProtect Expert server software to be installed on one Management Server (or one server cluster) and an unlimited number or Recording Servers per Software License Code. The client software can be installed on an unlimited number of workstations and at different locations. No Device Licenses (XPETDL) are included in the Base License.

2) One Device License (XPETDL) is needed per device used in the system.

3) Care Plus is mandatory for the whole XProtect Expert installation (applicable to both XPETBT and XPETDL licenses) for minimum one year after the initial purchase of the Base Server license (XPETBT).

4) Can be used for upgrade to corresponding product base license for XProtect Expert or XProtect Corporate.

5) Can be used to Trade-in to newer versions of the same product, or upgrade to corresponding product base license for XProtect Expert or XProtect Corporate.

XProtect Corporate

XProtect Corporate is powerful IP video management software (VMS) designed for large-scale and high-security deployments. Its single management interface enables the efficient administration of the system including all cameras and security devices regardless of its size or if it is distributed across multiple sites. For systems demanding supreme situational awareness and precise response to incidents, XProtect Corporate features interactive maps linked to alarms and includes XProtect® Smart Wall. XProtect Corporate provides the ultimate system reliability for high-security installations. Edge Storage support combined with failover recording servers and redundant management servers ensure video recording is never interrupted.

N.B. Milestone Care Plus is mandatory for the whole XProtect Corporate installation (applicable to both XPCOBT and XPCODL licenses, and possible XPCOMIDL) during the first year after the initial purchase of the Base License (XPCOBT).

Available for: Advanced Certified Milestone partners only and when approved by the Milestone Channel Business Manager

NOTES

1) XProtect Corporate Base License (XPCOBT) allows the XProtect Corporate server software to be installed on an unlimited number of servers per Software License Code. The client software can be installed on an unlimited number of workstations and at different locations. When purchased for 2014 or newer versions of XProtect Corporate, the base license includes one XProtect Smart Wall Base License (XPSWBL). No Device Licenses (XPCODL) are included in the Base License.

2) One Device License (XPCODL) is needed per device used in the system.

3) One XProtect Corporate Milestone Interconnect Camera License (XPCOMIDL) is required per camera in an interconnected site that is enabled in the central XProtect Corporate system. NB. An interconnected remote system without any enabled cameras will require one Milestone Interconnect Camera License.

4) Care Plus is mandatory for the whole XProtect Corporate installation (applicable to both XPCOBT and XPCODL licenses and possible XPCOMIDL) for minimum one year after the initial purchase of the Base Server license (XPCOBT). Care Plus coverage purchased for the XProtect Corporate Base License (XPCOBT) also covers the included XProtect Smart Wall for 2014 or newer versions of XProtect Corporate.

5) Care Plus coverage purchased for the XProtect Corporate Base License (XPCOBT) also covers the included XProtect Smart Wall for 2014 or newer versions of XProtect Corporate.

6) Can be used to Trade-in to newer versions of the same product.

LICENSING OF MILESTONE INTERCONNECT™

One Milestone Interconnect Device License is required per camera in an interconnected remote site that is enabled in the central XProtect Corporate system. It is possible to interconnect a subset of the cameras in an interconnected site. Please note that an interconnected remote site without any enabled cameras will require one Milestone Interconnect Device License.

Interconnected remote systems are licensed independently via the normal licensing structure applicable for the particular product. Hence, interconnected remote systems do not require additional licenses when interconnected to a central XProtect Corporate system. This also includes products purchased before Milestone Interconnect was introduced.

XProtect Clients

XProtect Smart Client

Designed for Milestone XProtect IP video management software, the XProtect Smart Client is a powerful, easy-to-use client application for the daily operations of security installations. A new, streamlined interface helps improve usability, making it easy to monitor installations of all sizes, manage security incidents and access and export live and recorded video. Continually setting the standard for usability in IP VMS products, the XProtect Smart Client provides an extremely efficient working environment that can be optimized for different tasks and operator requirements. Advanced investigation tools combined with the easy-to-navigate video timeline enable fast and accurate examination of incidents. New export options, including digital signature, enable you to more efficiently and securely export video evidence.

Current version: 2016

LICENSES

XProtect Smart Client can be used free of charge with all Milestone XProtect video management products and Milestone Husky NVR units, except with Milestone Husky M10.

XProtect Web Client

Designed for XProtect® video management software (VMS) and Milestone Husky™ NVRs, XProtect® Web Client is an intuitive web-based interface to view, play back and share video. It provides instant access to all essential functions and it is quick to learn and simple to operate for users of all skill levels. Available in 27 languages, XProtect Web Client provides remote access to the surveillance system from all common browsers and computer operating systems. XProtect Web Client runs on any Internet-enabled computer or device without installation, including optional browser plug-ins. It offers system scalability and an optimized user experience in systems with many users.
Current version: 2016

LICENSES

XProtect Web Client can be used free of charge with all Milestone XProtect video management products and Milestone Husky NVR units.

Milestone Mobile

Milestone Mobile is a free application for Apple®, Android™ and Windows Phone 8 devices that allows users to view video instantly using smartphones or tablets. It operates seamlessly with all XProtect® video management software (VMS), Milestone Husky™ NVRs and the Milestone Arcus™ platform via Wi-Fi, 3G or 4G connections. With Milestone Mobile users can view, play back and export video, control output and push live video from the device's camera, allowing users to see what's important regardless of their location. Milestone Mobile 2014 is localized into 27 different languages, allowing users to work with the application in their native language.
Current version: 2016

LICENSES

Milestone Mobile can be used free of charge with all Milestone XProtect video management products and Milestone Husky NVR units.
However, to use Video Push, a device license is required for each Milestone Mobile device from which users shall be able to push video. The price of the device license is determined by the specific XProtect VMS product being used.

XProtect Add-on Products
XProtect Smart Wall

XProtect Smart Wall is an advanced add-on video wall product that improves response time by giving a complete overview of large surveillance centers. It is possible to create presets defining view layout and content for each XProtect Smart Wall. With configuration flexibility, users can easily populate preset layouts by dragging-and-dropping camera icons or using the powerful rules engine. XProtect Smart Wall supports any amount or combination of monitors regardless of manufacturer and runs on standard servers and displays.

XProtect Smart Wall is included in XProtect® Corporate 2014 and can be added to XProtect Expert® 2014.

Available for: Advanced Certified Milestone partners only and when approved by the Milestone Channel Business Manager

Current version: 2016

LICENSES			MSRP	
License ID	Name		USD	Note
XPSWBL	XProtect Smart Wall Base License		15,799.00	1

MILESTONE CARE PLUS OPTIONS

There are no Milestone Care options available for XProtect Smart Wall.

TRADE-IN CREDIT

Trade-in of XProtect Smart Wall base license is not available.

NOTES

1) XProtect Smart Wall is an optional add-on license for XProtect Corporate 3.0 to 2013 R2, and XProtect Expert 2014 and newer versions of XProtect Expert. XProtect Smart Wall is included XProtect Corporate Base License (XPCOBL) as of version 2014. The XPSWBL is linked to a specific XProtect Corporate or XProtect Expert system's Base License and gives the right to run unlimited XProtect Smart Walls, displays and camera streams under that Base Server License.

XProtect Access

Milestone XProtect® Access is an XProtect Add-on product that video enables physical security though integration of access control and intrusion systems. XProtect Access provides operators unified access to all primary and most common functions in the integrated access control system as an integral part of XProtect Smart Client. The video enablement of access control systems empowers operators to effectively monitor access events, manually assist passages and conduct investigations on specific access points or cardholders, while enriching the value of reports and evidence material.

Extending the capabilities of the Milestone Integration Platform, the unique plug-in architecture makes integration of physical security systems easy, while reducing cost of installation at the customer site. With its decoupling of the video system and the access control system, XProtect Access provides customers with the freedom of selecting the system of their choice to match the specific needs and budget.

NB.

XProtect Access 2016 replaces XProtect Access Control Module 2014. XProtect Access 2016 is compatible with all 2016 versions of Milestone XProtect VMS products, except XProtect Essential. The 2016 version of XProtect Access currently not available for the Milestone Husk NVR series. Customers running XProtect Access Control Module 2014 can upgrade to XProtect Access 2016, when upgrading their underlying XProtect VMS system, using the trade-in SKUs defined for XProtect Access Control Module 2014.

Available for: All Milestone resellers

Current version: 2016

NOTES

1) Base license for the Xprotect Access product, with no included Door Licenses.
2) Door license for one single video enabled access point (door, gate, etc.).

XProtect Access Control Module

Successfully uniting access control and video into one powerful security solution, Milestone introduces XProtect Access Control Module, an add-on product to Milestone XProtect video management software (VMS). Extending the capabilities of the Milestone Integration Platform, XProtect Access Control Module enables easy integration of third-party access control solutions with Milestone video management solutions. XProtect® Smart Client users have a consolidated interface to operate access control systems with dedicated functions to effectively monitor access events, manually assist passages and conduct investigations on specific access points or cardholders.

XProtect Access Control Module 2014 is supported by the 2014 versions of all XProtect VMS products, except XProtect Essential and all Milestone Husky NVRs but Milestone Husky M10.

NB.

The XProtect Access Control Module 2014 has been replaced by XProtect Access for the 2016 versions of Milestone XProtect VMS products. XProtect Access Control Module 2014 will remain to be available for the 2014 versions of Milestone XProtect VMS products and Milestone Husky NVRs.

Available for: All Milestone resellers

2) Can be used for trade-in to corresponding license for XProtect Access.

XProtect Transact

XProtect Transact directly links video with transaction data from point-of-sale or automated teller machines (ATM). Transactions and corresponding video can be monitored live or viewed later. You can perform a text search on one cash register/till at a time to identify transactions with, for example, gift cards, credit cards, coupons or returned merchandise. Whether your challenge is shrinkage, fraud or you simply want to validate a transaction, XProtect Transact will help identify problems and protect your business, customers and employees. It is also easy to quickly export and distribute evidence, including video and transaction data.

XProtect Transact is compatible with all XProtect VMS products, except XProtect Essential and all Milestone Husky NVRs but Milestone Husky M10.

Available for: All Milestone resellers

XProtect LPR

XProtect LPR is license plate recognition (LPR) software that detects license plate information from any vehicle around the world and links the license plate number with video. It is a simple way to control vehicle access, for example, for entrance/exit barriers, parking spaces and toll gates. XProtect LPR can send a notification when a certain license plate is detected, enabling users to quickly take action. Users can also define positive/negative lists that will initiate certain actions, such as opening a gate, which increases work productivity and can help automate tasks. XProtect LPR is an add-on product that is seamlessly configured and managed through the supported XProtect video management software (VMS) products.

XProtect LPR is compatible with all XProtect VMS products, except XProtect Essential and all Milestone Husky NVRs but Milestone Husky M10.

XProtect LPR replaces the corresponding functionality offered as a part of the XProtect Analytics framework.

Available for: All Milestone resellers

NOTES

1) XProtect LPR Base License (XPLPRBL) allows the XProtect LPR server software to be installed on unlimited number of servers per Software License Code. Includes five XProtect LPR Country Modules Possible additional libraries required must be purchased in excess, using the XProtect LPR Country Modules (XPLPRLL) license.

2) License per camera running LPR analytics.

3) Additional country modules (beyond the 5 included modules) for XProtect LPR covering a specific region, state or country. The XPLPRLL license allows the LPR country module to be deployed on an unlimited number of XProtect LPR servers in a given installation. Please contact Milestone web (http://www.milestonesys.com/our-products/xprotect-addons/xprotect-lpr/xprotect-lpr-supported-license-plates1/) for details on available LPR country modules.

XProtect Screen Recorder

The XProtect Screen Recorder is a function that enables Milestone XProtect IP video management software to inconspicuously capture screen recordings of any Windows-based PC or point-of-sale terminal. Captured screen recordings are managed in the same way as video (camera) data in the XProtect VMS. This feature helps manage loss and fraud by monitoring the use of business systems and documenting customer transactions. XProtect Screen Recorder improves efficiency by allowing you to audit staff activities and conduct training and education. The XProtect Screen Recorder works seamlessly with all Milestone XProtect VMS products.

Current version: 2016

LICENSES

Although the XProtect Screen Recorder is not subject to licensing as such, one (1) device license in the Milestone XProtect video management product or Milestone Husky NVR unit is needed per monitored PC or POS equipment.

XProtect Input Unit Plug-ins

Milestone offers specific integrations to a range of input units from a number of world leading manufacturers. These units can be used as a single point of interaction with XProtect Corporate, XProtect Enterprise, XProtect Professional, XProtect Express and XProtect NVR, through the XProtect Smart Client. The XProtect Smart Client plug-in comes with a default configuration for the input unit functionality, but is flexible and can be programmed on the XProtect Smart Client to do additional functions with the push of a button.

Please note that licenses for the XProtect Input Unit Plug-ins are issued directly by Milestone Partner Service & Sales Support upon request.

Available for: All Milestone resellers

XProtect Input Unit Plug-ins		MSRP	
License ID	**Name**	**USD**	**Note**
MIPIU-AD	XProtect Input Unit Plug-in for American Dynamics AD CC300	0.00	1
MIPIU-PAN	XProtect Input Unit Plug-in for Panasonic WV-CU950	0.00	1

MIPIU-BSC	XProtect Input Unit Plug-in for Bosch IntuiKey	0.00	1
MIPIU-AXI	XProtect Input Unit Plug-in for Axis T8310	0.00	1

NOTES

1) Input Unit Plug-in is an optional add-on license for the XProtect Corporate, XProtect Expert, XProtect Enterprise, XProtect Professional, XProtect Express and Milestone Husky M30 and Milestone Husky M50. The MIPIU-XX license is linked to a specific XProtect VMS Base License and gives the right to unlimited use of the Input Unit Plug-in under that Base License.

XProtect Retail

XProtect Retail is an investigation tool for performing advanced transaction data analysis. It helps retailers optimize store operations and increase profit by identifying fraud and reducing shrinkage. Based on transaction data from point-of-sale (POS) or automated teller machines (ATMs) typically gathered in Enterprise Resource Planning (ERP) systems, XProtect Retail links data with corresponding video from relevant cameras. Advanced search options, full video documentation and a set of pre-defined performance indicators make it easy to maintain a complete overview of store operations, cash registers/tills and employees so you can protect your entire business and customers.

The XProtect Retail solution offers an Application Programming Interface (API) which enables the customer to populate the Milestone Database with transactional data.

XProtect Retail is compatible with all XProtect VMS products, except XProtect Essential and all Milestone Husky NVRs but Milestone Husky M10.

Standard
Purchase of an XProtect Retail solution requires purchase of a mandatory XProtect Retail Integration Service (MSCXPR) that includes:
• Assistance in scoping and defining the retail solution
• Assistance during the development phase of the integration

Customized
Milestone also offers customized development of integration into the Retail solution on a fixed price basis. For customers requiring this, and for customers with more complex retail solutions, additional consultancy assistance can be purchased on a daily basis (MSCXPRD) to cover:
• Analysis of customer specific systems to be integrated with the retail solution
• Implementation of the retail solution (data and function integration)
• Optimization of the data base performance
• Test and document of the retail solution
• Assistance during the deployment of the solution (camera setup, mapping of tills in the system, etc.)

XProtect Retail must be ordered manually via the Milestone Partner Service & Sales Support department and is not available on MOOS. Purchase of a Retail solution is subject to closure of a separate development contract.
Available for: Advanced Certified Milestone partners only and when approved by the Milestone Channel Business Manager

LICENSES		MSRP

MILESTONE CARE PLUS OPTIONS
There are no XProtect Retail specific Milestone Care Plus options available. However, it is mandatory to purchase Milestone Care Plus coverage for the underlying XProtect platform that is used together with the XProtect Retail solution.

TRADE-IN CREDIT
Trade-in of XProtect Retail licenses is not available.

NOTES

1) Gives the right to deploy and use the XProtect Retail solution on unlimited number of servers and sites for the given installation (legal entity).

2) One XProtect Retail Connection License (XPRCL) is required for each device, such as POS, till, scanner, etc., that is connected to the XProtect Retail solution.

3) Includes one week of XProtect Retail Integration Assistance for integration of customer specific databases and business systems. Additional integration work may be required dependent on the nature and complexity of the integration. Service is mandatory with any purchase of XProtect Retail. Travel time is charged at a reduced rate and travel costs are covered by the customer, using the Travel Expenses Voucher (MSTXP).

4) Daily rate for additional Retail specific integration services. Travel time is charged at a reduced rate and travel costs are covered by the customer, using the Travel Expenses Voucher (MSTXP).

Milestone Husky NVR Products

The Milestone Husky™ Series challenges the limitations of ordinary all-in-one network video recorders (NVRs). The unique optimal surveillance solutions are designed to perform in a variety of configurations that best suit the customer – from a single shop to a complex multi-site deployment! Pre-installed with Milestone's industry-leading video management software (VMS), Milestone Husky integrated solutions offer small, workstation, and rack-mounted IP models. The series also offers hybrid models that provide analog camera users with an easy and inexpensive solution for IP (digital) transition. Any business is able to mix multiple models, cameras, and even third-party add-on software for a customized, scalable solution that reduces total cost of ownership without compromising on quality.

Download and use the Milestone Husky Calculator to select the optimal Husky solution with confidence - http://husky.milestonesys.com/MHC/setup.exe

The Milestone Husky product line is continuing to roll out in select regions. Please confirm with your Milestone Sales contact on specific in-country availability before placing your order.

Milestone Husky M50 Advanced

Milestone Husky M50 Advanced is a rack-mounted solution, featuring XProtect Advanced software, that extends the Husky NVR portfolio to address large-scale and high-security deployments. It offers ultimate configuration flexibility and scalability, and premium features such as centralized management on an integrated appliance. The Milestone Husky M50 Advanced includes the powerful Husky Assistant onsite configuration wizard which allows simple and reliable deployment of Husky Advanced models as an All in One or a Recording server.

Available for: Advanced Certified Milestone partners only and when approved by the Milestone Channel Business Manager

Current version: 2014

An interconnected remote system without any enabled cameras will require one Husky Advanced Milestone Interconnect Camera License.

Milestone Solutions
Milestone Honeywell Galaxy Integration

Honeywell Galaxy is an alarm panel system.

This solution is a Milestone XProtect Event Server solution that supports groups, zones and outputs on the Honeywell Galaxy box and on any connected RIO modules. It provides the ability to listen to alarms on these and has the ability to enable and disable them.

Available for: Certified Honeywell integrators

Current version: -

LICENSES		MSRP	
License ID	Name	USD	Note
MIPPP-HGX-BS	Honeywell Galaxy Base License incl.1 panel	1,300.00	1
MIPPP-HGX-C1	Honeywell Galaxy additional panel	329.00	2

MILESTONE CARE PLUS OPTIONS

There are no Milestone Care options available for the Milestone Honeywell Galaxy integration solution.

TRADE-IN CREDIT

Trade-in of the Milestone Honeywell Galaxy integration solution is not available.

NOTES

1) Base License for one Event Server.

2) License for additional panel on the same Event Server.

Milestone Paxton Net2 Integration

The Milestone Paxton Net 2 Integration Solution combines Paxton Access Net2 access control monitoring with market-leading XProtect® video management software (VMS). The solution integrates directly into XProtect® Smart Client and allows users to control access and monitor video from one unified interface, eliminating the need to run two separate applications for daily monitoring and control.

The solution is available in two editions: Standard and Advanced. Both editions of the Milestone Paxton Integration Solution capture critical events from the Paxton Net2 server and present them as alarms in XProtect Smart Client. The alarms are automatically linked to relevant video footage from corresponding cameras. Users gain seamless control of cameras in their surveillance system based on Paxton door events, such as starting/stopping recording, changing video frame rate and moving the camera to focus on a door.

The Standard edition links video footage and access control events from the Paxton Net2 Access Control system for prompt investigation of security breaches and export of video sequences. The Advanced edition provides additional functionality, such as advanced alarm handling and quick graphical overview of the various access points based on the map function in XProtect Smart Client. This enables the security operator to see the status of individual doors and remotely operate them directly from the XProtect Smart Client map.

The Standard edition is available for XProtect Professional 8.0/8.1, XProtect Express and XProtect NVR and the Advanced edition is available for XProtect Corporate, XProtect Expert, XProtect Enterprise and XProtect Professional 2013.

Available for: All Milestone resellers

Current version: 1.1

LICENSES		MSRP	
License ID	Name	USD	Note
MIP-AC-PAXS	Standard Milestone Paxton Net2 integration	1,350.00	1
MIP-AC-PAXA	Advanced Milestone Paxton Net2 integration	1,350.00	2

MILESTONE CARE PLUS OPTIONS

There are no Milestone Care options available for the Milestone Paxton Net2 Integration solution.

TRADE-IN CREDIT

Trade-in of the Milestone Paxton Net2 Integration solution is not available.

NOTES

1) Compatible with XProtect NVR, XProtect Express and XProtect Professional 8.0/8.1. The Milestone Paxton Net2 integration license (MIP-AC-PAXS) is linked to a specific XProtect VMS Base License and offers one connection to a Net2 Server for each Event Server in the installation.

2) Compatible with XProtect Corporate, XProtect Expert and XProtect Enterprise and XProtect Professional 2013. The Milestone Paxton Net2 integration license (MIP-AC-PAXA) is linked to a specific XProtect VMS Base License and offers one connection to a Net2 Server for each Event Server in the installation.

Milestone Services

As a complements to Milestone's video surveillance products, Milestone offers a portfolio of services designed to maximize the value of Milestone products for partners and customers. The service portfolio includes a wide range of customization and post-sales services:

- **Custom Development** – a customization and integration service enabling Milestone ecosystem partners to meet specific customer needs by fully explore the utilize of Milestone's open platform technology
- **Milestone Professional Services** - a portfolio of system deployment and optimization services designed to unlock the full potential of Milestone installations while optimizing the system performance for a problem-free and stable operation
- **Milestone Care** – a portfolio of operational maintenance and support services available to Milestone end-customers designed to ensure smooth operation and ensure a high return on investment

Custom Development

Milestone's XProtect open platform software allows for integration with the widest choice of third-party applications and business systems via the Milestone Integration Platform (MIP). The open architecture of XProtect provides endless possibilities to create custom, powerful video management solutions.

The Milestone Custom Development service offers assistance in developing, installing and supporting tailor-made integrated solutions. We also deliver services and software that enable Milestone and our partners to offer complete solutions that match customer needs for IP-based video surveillance systems. Our experienced consultants have broad experience integrating third-party applications and business systems into tailor-made XProtect software including:

- Access control
- Alarm systems
- Video analytics
- Point-of-sale (POS) systems
- Communication protocols
- Enterprise resource planning (ERP) databases

Each integrated solution is managed by a dedicated project leader and developed by one or more senior developers to ensure functionality and quality. Solutions are also tested in-house by the Milestone Test Department. All consultancy department staff members are senior engineers with a bachelor's or master's degree and many years' experience in the industry, ensuring a high-quality solution.

Not only can we provide you with expertise, the consultancy department also offers in-depth training of the MIP Software Development Kit (SDK), the comprehensive tool used to create applications for XProtect. The hands-on training is beneficial for experienced developers who want to create their own integration for XProtect software.

For more information about our consultancy services, contact us at Consultancy@milestonesys.com.

Custom Development services cannot be ordered via Milestone's Online Order System.

Milestone Care

Milestone Care is a portfolio of operational maintenance and support services available to Milestone end-customers. Milestone Care consists of four different service offerings: Milestone Care™ Basic, which accompanies every Milestone product, Milestone Care™ Plus, Milestone Care™ Premium and Milestone Care™ Elite. Milestone Care is an extension to the former Software Upgrade Plan (SUP), where Milestone Care Plus replaces SUP with the same core services and commercial terms.

Please refer to page 4 for further details on Milestone Care.

Milestone Care Basic

Milestone Care Basic is a complimentary services offering included with every Milestone product. Milestone does hence not charge for the Milestone Care Basic service level.

Milestone Care Plus

For details and ordering instructions on Milestone Care Plus, please refer to the Milestone Care Plus section on page 4. Prices and SKUs for Milestone Care Plus are listed under the respective Milestone products.

Milestone Care Premium

For details and ordering instructions on Milestone Care Premium please refer to the Milestone Care Premium section on page 6.

5) Can be used to Trade-in to XProtect LPR Device License (XPLPRCL).

6) Can be used to Trade-in to XProtect LPR License Plate Library (XPLPRLL).

Revisions

Milestone Care on XProtect Add-on Products

As of January 1, 2016, it is no longer necessary to purchase separate Milestone Care plus coverage on XProtect Add-on products. Instead, the XProtect Add-on product(s) are automatically covered by the Milestone Care coverage on the XProtect VMS product or Milestone Husky NVR unit it's being used together with. This implies that all Milestone Care Plus and Milestone Care Premium SKUs related to the XProtect Add-on products have been removed.

XProtect Access

Milestone introduces XProtect Access in conjunction with the 2016 release of XProtect product suite on December 15, 2015. XProtect Access is the successor to XProtect Access Control Module, and compatible to all Milestone XProtect VMS 2016 products. Apart from a significantly lower price, XProtect Access is ordered via a simplified licensing model: XProtect Access Base License (XPABL) and XProtect Access Door License (XPADL).

The XProtect Access Control Module is still available for purchase for XProtect VMS 2014 products and Milestone Husky NVR units.
To support upgrade between the XProtect Access Control Module and XProtect Access, new trade-in SKUs have also been added.

XProtect Essential - Device License Packs

The campaign offer on Essential Device Licenses in packs ends on December 31, 2015. The device packs of 4, 8, 16, and 24 licenses have therefore been removed.

XProtect Transact

New trade-in options added to XProtect Transact.

About Milestone Systems

Milestone Systems is a global industry leader in open platform IP video management software, founded in 1998 and now operating as a standalone company in the Canon Group. Milestone technology is easy to manage, reliable and proven in thousands of customer installations, providing flexible choices in network hardware and integrations with other systems. Sold through partners in more than 100 countries, Milestone solutions help organizations to manage risks, protect people and assets, optimize processes and reduce costs.
